About BDO

Service provision within the international BDO network of independent member firms ('the BDO network') is coordinated by Brussels Worldwide Services BVBA, a limited liability company incorporated in Belgium with its statutory seat in Brussels.

Each of BDO International Limited (the governing entity of the BDO network), Brussels Worldwide Services BVBA and the member firms is a separate legal entity and has no liability for another such entity's acts or omissions. Nothing in the arrangements or rules of the BDO network shall constitute or imply an agency relationship or a partnership between BDO International Limited, Brussels Worldwide Services BVBA and/or the member firms of the BDO network.

BDO is the brand name for the BDO network and for each of the BDO member firms.

Preface

Scope

This publication, Illustrative Financial Statements 2013, provides a set of sample financial statements of a fictitious group of companies for the financial year ended 31 December 2013. ABC Singapore Limited is a company incorporated in Singapore and its shares are listed on the Main Board of the Singapore Exchange Securities Trading Limited ("SGX").

The names of people and entities included in this publication are fictitious. Any resemblance to a person or entity is purely coincidental.

Effective date

This set of illustrative financial statements includes sample disclosures under the requirements of the Singapore Companies Act, Singapore Exchange Securities Trading Limited (SGX-ST) Listing Manual and Singapore Financial Reporting Standards (including its Interpretations) that are effective for financial years commencing on 1 January 2013.

Illustrative in nature

The sample disclosures in this set of illustrative financial statements should not be considered to be the only acceptable form of presentation. The form and content of each reporting entity's financial statements are the responsibility of the entity's directors/management and other forms of presentation which are equally acceptable may be preferred and adopted, provided they include the specific disclosures prescribed in the Singapore Companies Act, Singapore Exchange Securities Trading Limited (SGX-ST) Listing Manual and Singapore Financial Reporting Standards.

The illustrative financial statements are not substitutes for reading the legislation or standards themselves, or for professional judgement as to fairness of presentation. They do not cover all possible disclosures required by the Singapore Companies Act, Singapore Exchange Securities Trading Limited (SGX-ST) Listing Manual and Singapore Financial Reporting Standards. Depending on the circumstances, further specific information may be required in order to ensure fair presentation and compliance with laws, accounting standards and stock exchange regulations in Singapore.

Guidance notes

Direct references to the source of disclosure requirements are included in the reference column on each page of the model financial statements. Commentaries are provided where additional matters may need to be considered in relation to a particular disclosure. These commentaries are inserted within the relevant section or note.

Further guidance

Readers may also refer to the BDO IFRS Illustrative Financial Statements 2013 for further guidance and illustrative disclosures prepared under International Financial Reporting Standards, including on certain areas not covered by this publication. These can be downloaded from www.bdointernational.com.

ABC SINGAPORE LIMITED AND ITS SUBSIDIARIES

REPORT OF THE DIRECTORS AND FINANCIAL STATEMENTS

FINANCIAL YEAR ENDED 31 DECEMBER 2013

CONTENTS

ABC SINGAPORE LIMITED AND ITS SUBSIDIARIES

REPORT OF THE DIRECTORS

CA 201: 5, 6A

The directors of the Company present their report to the members together with the audited financial statements of the Group for the financial year ended 31 December 2013 and the statement of financial position of the Company as at 31 December 2013.

CA 201: 6(a), 6A(a)

1. Directors

The directors of the Company in office at the date of this report are as follows:

Aaron Chan
Bradley Toh
Cathy Ng (Appointed on 3 November 2013)
Divya D/O Thinupathy
Eng Lee Ming
Foo Tien Kuang

CA 201: 6(f)
CA 201: 6A(g)
CA 164: 1(d)

2. Arrangements to enable directors to acquire shares or debentures

Neither at the end of nor at any time during the financial year was the Company a party to any arrangement whose object was to enable the directors of the Company to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate, [except as disclosed in paragraph 5 below].

CA 201: 6g, 6A(h)
CA 164: 1(a), (b)

3. Directors' interests in shares or debentures

The directors of the Company holding office at the end of the financial year had no interests in the shares or debentures of the Company and its related corporations as recorded in the Register of Directors' Shareholdings kept by the Company under section 164 of the Singapore Companies Act (the Act), except as follows:

Name of directors and companies in which interests are held	**Shareholdings registered in name of director or nominee**		**Shareholdings in which director is deemed to have an interest**	
	At beginning of year or date of appointment, if later	**At end of year**	**At beginning of year or date of appointment, if later**	**At end of year**
Company:				
ABC Singapore Limited				
(No. of ordinary shares)				
Aaron Chan				
Cathy Ng				
Holding Company:				
XYZ Holding Pte. Ltd.				
(No. of ordinary shares)				
Aaron Chan				
Bradley Toh				

CA 7: 4A
SGX 1207: 7

By virtue of Section 7 of the Act, XXX is deemed to have an interest in all related corporations of the Company. In accordance with the continuing listing requirements of the Singapore Exchange Securities Trading Limited (SGX-ST), the Directors of the Company state that, according to the Register of the Directors shareholdings, the Directors' interests as at 21 January 2014 in the shares or debentures of the Company have not changed from those disclosed as at 31 December 2013.

CA 201: 8
SGX 1207: 8

4. Directors' contractual benefits

Since the end of the previous financial year, no director of the Company has received or become entitled to receive a benefit which is required to be disclosed under Section 201(8) of the Act, by reason of a contract made by the Company or a related corporation with the director or with a firm of which he is a member, or with a company in which he has a substantial financial interest, except for salaries, bonuses and other benefits, as disclosed in the financial statements. Certain directors received remuneration from related corporations in their capacity as directors and/or executives of those related corporations as disclosed in Note 39 of the accompanying financial statements.

SGX 852
SGX 1207: 16
CA 201: 11
CA 201: 11B
CA 201: 12

5. Share options

There were no share options granted by the Company or its subsidiaries during the financial year.

There were no shares issued during the financial year by virtue of the exercise of options to take up unissued shares of the Company or its subsidiaries.

There were no unissued shares under option in the Company or its subsidiaries as at the end of the financial year.

CA 201B: 9

6. Audit committee

The audit committee of the Company is chaired by Foo Tien Kuan, an independent director, and includes Eng Lee Ming and Divya D/O Thinupathy, who are both independent directors. The audit committee has met four times since the last Annual General Meeting (AGM) and has carried out its functions in accordance with section 201B(5), including reviewing the following, where relevant, with the executive directors and external and internal auditors of the Company:

(a) the audit plans of the internal and external auditors and the results of the internal auditors examination and evaluation of the Company's systems of internal accounting controls;
(b) the Company's and the Group's financial and operating results and accounting policies;
(c) the statement of financial position of the Company and the consolidated financial statements of the Group before their submission to the directors of the Company and external auditor's report on those financial statements;
(d) the quarterly, half-yearly and annual announcements as well as the related press releases on the results and financial position of the Company and the Group;
(e) the co-operation and assistance given by the management to the Company's external auditor; and
(f) the re-appointment of the external auditor of the Company.

The audit committee has full access to and has the co-operation of the management and has been given the resources required for it to discharge its function properly. It also has full discretion to invite any director and executive officer to attend its meetings. The external and internal auditors have unrestricted access to the audit committee.

The audit committee has recommended to the directors the nomination of BDO LLP for re-appointment as external auditor of the Company at the forthcoming AGM of the Company.

7. Auditor

The auditor, BDO LLP, has expressed its willingness to accept re-appointment.

Share Options

Where options are granted by the Company or its subsidiaries, certain disclosures are required under Section 201(11) of the Companies Act.

For options granted by the Company during the financial year, the following disclosures have to be made:

CA 201: 11(b)
CA 201: 11(c)
CA 201: 11(d)
CA 201: 11(e)

(a) The number and class of shares in respect of which the option has been granted;
(b) The date of expiration of the option;
(c) The basis upon which the option may be exercised; and
(d) Whether the person to whom the option has been granted has any right to participate by virtue of the option in any share issue of any other company.

CA 201: 12
SGX 852: 1(a)

Please refer to the following as an illustrative guide:

At the end of the financial year, there were [ ] ordinary shares of ABC Singapore Limited under option relating to the [name of option scheme] Share Option Scheme [Please describe the terms of the options.] which was approved by the members of the Company at an Extraordinary General Meeting on [insert date].

SGX 852: 1(b)(i)

(a) Options granted to directors of the Company under the [name of option scheme] Share Option Scheme are as follows:

Name	*Options granted during 2013*	*Aggregate options granted since commencement of the Scheme or date of appointment, if later, to 31 December 2013*	*Aggregate options exercised since commencement of the Scheme or date of appointment, if later, to 31 December 2013*	*Aggregate options lapsed since commencement of the Scheme or date of appointment, if later, to 31 December 2013*	*Aggregate options outstanding at 31 December 2013*
Aaron Chan					
Bradley Toh					
Cathy Ng					

SGX 852: 1(b)(ii)

(b) The options granted to the controlling shareholder, Aaron Chan, are as described in paragraph (a) above. There were no options granted to associates of the controlling shareholder during the financial year.

SGX 852: 1(b)(iii)

(c) During the financial year, no employee has received 5% or more of the total number of options available under the [name of option scheme] Share Option Scheme.

SGX 852: 1(c)(ii)

(d) No options have been granted to directors and employees of the holding company and its subsidiaries.

SGX 852: 1(d)

(e) No options were granted at a discount to market price during the financial year.

CA 201: 11(c), 11B, 12(b)

(f) Under the [name of option scheme] Share Option Scheme, share options granted, exercised and lapsed during the financial year and outstanding as at 31 December 2013 were as follows:

Date granted	*At date of grant*	*Balance at 31 December 2012*	*Lapsed*	*Exercised*	*Balance at 31 December 2013*	*Exercise price $*	*Exercise period*
5 February 2007							
5 February 2007							
5 February 2007

21 July 2008							
21 July 2008							
21 July 2008							

Other Information

CA 203: 1
SGX 707: 2
CA 201: 5

The Report of the Directors shall be made out and sent to all persons entitled to receive notice of general meetings of the Company not less than 14 days before the date of the Annual General Meeting ("AGM"). The Report shall be made in accordance with a resolution of the directors specifying the day on which it was made out and be signed by at least 2 directors.

CA 201: 1(a), (b)
SGX 707: 1
CA 201: 3A(a)(i),(ii)

AGMs shall be held within four months and six months after the end of their financial years for listed and non-listed companies respectively.

STATEMENT BY DIRECTORS

CA 201: 15(a), (b) In the opinion of the directors,

(a) the consolidated financial statements of the Group and the statement of financial position of the Company together with the notes thereon are drawn up so as to give a true and fair view of the state of affairs of the Group and of the Company as at 31 December 2013, and of the results, changes in equity and cash flows of the Group for the financial year then ended; and

CA 201: 15(c) (b) at the date of this statement, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they fall due.

CA 201: 1

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF ABC SINGAPORE LIMITED

SSA 700: 39

Report on the Financial Statements

SSA 700: 23
AGS 1

We have audited the accompanying financial statements of ABC Singapore Limited (the "Company") and its subsidiaries (the "Group") which comprise the consolidated statement of financial position of the Group and the statement of financial position of the Company as at 31 December 2013, and the consolidated statement of comprehensive income, statement of changes in equity and statement of cash flows of the Group for the financial year then ended, and a summary of significant accounting policies and other explanatory information.

SSA 700: 25

Management's Responsibility for the Financial Statements

SSA 700: 26

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Singapore Companies Act, Chapter 50 (the "Act") and Singapore Financial Reporting Standards, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair profit and loss accounts and balance sheets and to maintain accountability of assets.

SSA 700: 28

Auditor's Responsibility

SSA 700: 29
SSA 700: 30

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Singapore Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

SSA 700: 31

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

SSA 700: 33

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

SSA 700: 34 *Opinion*

CA 207: 2(a)
SSA 700: 35 In our opinion, the consolidated financial statements of the Group and the statement of financial position of the Company are properly drawn up in accordance with the provisions of the Act and Singapore Financial Reporting Standards so as to give a true and fair view of the state of affairs of the Group and of the Company as at 31 December 2013 and the results, changes in equity and cash flows of the Group for the financial year ended on that date.

SSA 700: 38 **Report on Other Legal and Regulatory Requirements**

CA 207: 2(b) In our opinion, the accounting and other records required by the Act to be kept by the Company and by those subsidiaries incorporated in Singapore of which we are the auditors, have been properly kept in accordance with the provisions of the Act.

Commentary

In the application of FRS 1 *Presentation of Financial Statements*, the Group has elected to present:
- a single statement of comprehensive income (FRS 1: 81A);
- the components of other comprehensive income net of related tax effects (FRS 1: 91(a) with the income tax effects of the individual components disclosed in Note 10); and
- to present the reclassification adjustments relating to components of other comprehensive income in the statement of comprehensive income (FRS 1: 94).

Please refer to the Format 2 consolidated statement of comprehensive income for an analysis by nature of expense. If expenses are analysed by function, disclosures on the nature of expenses are also required, as illustrated in Note 7 in these financial statements.

Please refer to Appendix A for an illustrative example of the alternative presentation format consisting of a consolidated income statement and a consolidated statement of comprehensive income.

The accompanying notes form an integral part of these financial statements.

Commentary

FRS 1: 40A, 40B

A third statement of financial position is required to be presented in addition to the minimum comparatives as at beginning of the preceding period if:

(a) It applies an accounting policy retrospectively, makes a retrospective restatement or reclassifies items in its financial statements; and

(b) The retrospective application, restatement or reclassification has a material effect on the statement of financial position at the beginning of the preceding period.

The accompanying notes form an integral part of these financial statements.

Commentary

Separate Statement of Changes in Equity of the Company

The Group has not included a statement of changes in equity for the Company. If there are any changes in the Company's equity components during the current or preceding financial year, other than that resulting from profit or loss, or otherwise, a separate statement of comprehensive income and/or a separate statement of changes in equity for the Company could (as an option) be included and the necessary changes to the notes must be made accordingly.

FRS 1:106 requires an entity to disclose the following information in the statement of changes in equity:
- total comprehensive income for the period, showing separately the total amounts attributable to owners of the parent and to non-controlling interests;
- for each component of equity, the effects of retrospective application or retrospective restatement recognised in accordance with FRS 8; and
- for each component of equity, a reconciliation between the carrying amount at the beginning and the end of the period, separately disclosing changes resulting from:
  (i) profit or loss;
  (ii) other comprehensive income; and
  (iii) transactions with owners in the capacity as owners, showing separately contributions by and distributions to owners and changes in ownership interests in subsidiaries that do not result in a loss of control.

Under FRS 1:106A there is a choice to present, either in the statement of changes in equity or in the notes, an analysis of other comprehensive income by item. In the application of this standard, the Group has elected to disclose the information in the statement of changes in equity.

The accompanying notes form an integral part of these financial statements.

Commentary

(i) Direct/Indirect method

FRS 7: 18 allows entities to report cash flows from operating activities using either the direct method or the indirect method.

The Group presents its cash flows using the indirect method.

(ii) Investing and financing transactions that do not require the use of cash or cash equivalents

Investing and financing transactions that do not require the use of cash or cash equivalents shall be excluded from the statement of cash flows. Such transactions shall be disclosed elsewhere in the financial statements in a way that provides all the relevant information about these investing and financing activities. An example will be property, plant and equipment acquired under finance leases.

FRS 7: 42A

(iii) Changes in ownership interests

Cash flows arising from changes in ownership interests in a subsidiary that do not result in a loss of control are to be classified as cash flows from financing activities.

FRS 7: 39

Cash flows from obtaining or losing control of subsidiaries or other businesses are classified as investing activities.

FRS 7: 31

(iv) Interest and dividends

Cash flows from interest and dividends are to be disclosed separately and classified consistently from period to period as either operating, investing or financing activities.

The accompanying notes form an integral part of these financial statements.

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

1. General

FRS 1: 138(a) ABC Singapore Limited (the "Company") (Registration Number 123456789A) is a limited liability company incorporated and domiciled in Singapore with its principal place of business and registered office at 21 Merchant Road #05-01, Singapore 058267. The Company is listed on the Singapore Exchange Securities Trading Limited (SGX-ST).

FRS 1:138(b) The principal activity of the Company is that of investment holding.

The principal activities of the subsidiaries are disclosed in Note 16 to the financial statements.

FRS 1: 138(c)
FRS 24: 13 The Company's immediate and ultimate holding corporation is XYZ Holding Pte. Ltd., incorporated in Singapore.

Commentary

FRS 1: 51(a) If the Company changes its name during the financial year, the change shall be disclosed.

Please refer to the illustrative guide below:

"With effect from (effective date), the name of the Company was changed from (former name) to (current name)."

Disclosure of name of ultimate controlling party

FRS 24: 13 FRS 24 requires the Company to disclose the name of the Company's parent and, if different, the ultimate controlling party. The ultimate controlling party can be either an entity or a person. If neither the entity's parent nor the ultimate controlling party produces consolidated financial statements available for public use, the name of the next most senior parent that does so shall also be disclosed.

FRS 1: 112, 117

2. Summary of significant accounting policies

Commentary

Notes to the financial statements – general requirements

In the notes to the financial statements entities are required to present:

- Information about the basis of preparation of the financial statements and the specific accounting policies used
- Disclosures required by FRS not presented elsewhere in the financial statements
- Information that is not presented elsewhere in the financial statements, but is relevant to an understanding of the financial statements.

Disclosure of significant accounting policies

As a general rule accounting policies must be disclosed where they are relevant to understanding the financial statements. This means accounting policies are required to be disclosed for all material items in the financial statements. Materiality depends on both the size and nature of the item.

Some FRSs specifically require the disclosure of accounting policies for specific items. These have been illustrated in these illustrative financial statements where applicable. All other accounting policies are disclosed under the general requirement of FRS 1.117(b).

Accounting policies disclosed should be the specific accounting policies of the reporting entity and therefore the illustrative disclosures applicable to ABC Singapore Limited must be customised to the particular facts and circumstances of the reporting entity.

2.1 Basis of preparation

FRS 1: 16
SGX 1207: 59(d)
FRS 1: 117(a)

The financial statements have been drawn up in accordance with the provisions of the Singapore Companies Act, Chapter 50 and Singapore Financial Reporting Standards (FRS) including related Interpretations of FRS (INT FRS) and are prepared under the historical cost convention, except as disclosed in the accounting policies below.

FRS 1: 51(d)
FRS 1: 51(e)

The individual financial statements of each Group entity are measured and presented in the currency of the primary economic environment in which the entity operates (its functional currency). The consolidated financial statements of the Group and the statement of financial position of the Company are presented in Singapore dollar (“$”) which is the functional currency of the Company and the presentation currency for the consolidated financial statements and all values presented are rounded to the nearest thousand (“$’000”) as indicated.

FRS 1: 122,125

The preparation of financial statements in compliance with FRS requires management to make judgements, estimates and assumptions that affect the Group’s application of accounting policies and reported amounts of assets, liabilities, revenue and expenses. Although these estimates are based on management’s best knowledge of current events and actions, actual results may differ from those estimates. The areas where such judgements or estimates have the most significant effect on the financial statements are disclosed in Note 3.

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.1 Basis of preparation (Continued)

Commentary

FRS 1: 25

Going concern assumption

When preparing financial statements, management shall make an assessment of the entity's ability to continue as a going concern. Financial statements shall be prepared on a going-concern basis unless management either intends to liquidate the entity or to cease trading, or has no realistic alternative but to do so.

When the financial statements are not prepared on a going concern basis, the entity shall disclose this fact, together with the basis on which the financial statements are prepared and the reason why the entity is not considered a going concern.

Please refer to the illustrative disclosure below:

"These financial statements are prepared on a realisation basis because management intends to liquidate the company within the next 12 months from the end of the financial year".

When management is aware of material uncertainties related to events or conditions that my cast significant doubt upon the entity's ability to continue as a going concern, the entity shall disclose those uncertainties.

Illustrative disclosure of going concern uncertainty is as follows:

The Company incurred a net loss of $ZZZ (2012: $_______) during the year ended 31 December 2012 and, as of that date, the Company's current liabilities exceeded its current assets by $YYY (2012: $______). These conditions indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. The ability of the Company to continue as a going concern depends on the holding company's undertaking to provide continuing financial support and not to recall amounts due to them of $YYY until all creditors have been paid.

If the Company is unable to continue in operational existence for the foreseeable future, the Company may be unable to discharge its liabilities in the normal course of business and adjustments may have to be made to reflect the situation that assets may need to be realised other than in the normal course of business and at amounts which could differ significantly from the amounts at which they are currently recorded in the balance sheet/statement of financial position. In addition, the Company may have to reclassify non-current assets and liabilities. No such adjustments have been made to these financial statements.

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.1 Basis of preparation (Continued)

FRS 8: 28

In the current financial year, the Group has adopted all the new and revised FRS and INT FRS that are relevant to its operations and effective for the current financial year. The adoption of these new/revised FRS and INT FRS did not result in changes to the Group's accounting policies and had no material effect on the amounts reported for the current or prior years, except as detailed below.

Amendments to FRS 1 – *Presentation of Items of Other Comprehensive Income*

The amendments to FRS 1 require that items presented in other comprehensive income must be grouped separately into those that may be reclassified subsequently to profit or loss and those that will never be reclassified. As the amendments only affect the presentation of items recognised in other comprehensive income, there is no impact on the Group's financial position or financial performance on initial adoption of this standard on 1 January 2013.

FRS 113 - *Fair Value Measurement*

FRS 113 provides a single source of guidance on fair value measurement and fair value disclosure requirements when fair value measurement and/or disclosure is required by other FRSs. It also provides a common fair value definition and hierarchy applicable to the fair value measurement of assets, liabilities, and an entity's own equity instruments within its scope.

[The adoption of FRS 113 does not have any material impact on any of the Group's fair value measurements, therefore they has been no material impact on the financial position or financial performance of the Group. The Group has included the additional required disclosures in the financial statements. In line with the transitional requirements, FRS 113 has been adopted prospectively from 1 January 2013 and therefore comparative information has not been presented for the new disclosure requirements.]

Amendments to FRS 36 - *Recoverable Amount Disclosures for Non-financial Assets*

The consequential amendments of FRS 113 include amendments to FRS 36 that require the disclosure of information about the recoverable amount of any CGU for which the carrying amount of goodwill or intangible assets with an indefinite useful life is significant compared to the total carrying amount of goodwill or intangible assets with an indefinite useful life. As this was an unintended consequence, Amendments to FRS 36, effective for annual periods beginning on or after 1 January 2014, was issued to remove this requirement and instead require disclosure about recoverable amount only when there is a significant impairment or reversal of an impairment, as well as additional disclosure when recoverable amount is based on fair value less costs of disposal.

[The Group has early adopted the amendments to FRS 36 from 1 January 2013, and reflected the relevant amended disclosure requirements in these financial statements. There is no impact on the Group's financial position or financial performance.]

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.1 Basis of preparation (Continued)

Commentary

FRS and INT FRS effective for annual periods beginning on or after 1 January 2013

Disclosures should be made on the material effect on the financial statements in the current or prior periods or any expected material impact on future periods arising from the changes in the accounting policies as a result of the adoption of the following amended or new Standards and Interpretations:

		Effective date (annual periods beginning on or after)
FRS 1 (Amendments)	: *Presentation of Items of Other Comprehensive Income*	1 July 2012
FRS 19 (Revised)	: *Employee Benefits*	1 January 2013
FRS 101 (Amendments)	: *Government Loans*	1 January 2013
FRS 107 (Amendments)	: *Offsetting Financial Assets and Financial Liabilities*	1 January 2013
FRS 113	: *Fair Value Measurement*	1 January 2013
INT FRS 120	: *Stripping Costs in the Production Phase of a Surface Mine*	1 January 2013
Improvements to FRSs 2012		1 January 2013
FRS 1 (Amendments)	: *Presentation of Financial Statements*	
FRS 101 (Amendments)	: *First-time Adoption of FRS*	
FRS 16 (Amendments)	: *Property, Plant and Equipment*	
FRS 32 (Amendments)	: *Financial Instruments – Presentation*	
FRS 34 (Amendments)	: *Interim Financial Reporting*	

The following are additional illustrative disclosures, not applicable to ABC Singapore Limited, of changes in accounting policies upon the adoption of some of these new or amended standards.

FRS 19 (Revised) - *Employee Benefits*

Following the revisions to FRS 19, employee benefits must be expected to be settled, as opposed to due to be settled, wholly within 12 months after the end of the reporting period in order to be classified as short-term benefits and not be discounted. The revisions also include amendments to the timing of recognition of termination benefits.

[The Group does not have any material employee benefits expected to be settled beyond 12 months or any material termination benefits affected by the amendments. Therefore the revisions do not have any material impact on the Group's financial position or financial performance on initial adoption on 1 January 2013.]

Note – The revisions to FRS 19 also include changes to the accounting for defined benefit pension plans, including the elimination of the "corridor" approach for deferring gains/losses and a requirement to recognise actuarial gains/losses on remeasuring defined benefit plan obligations/assets in other comprehensive income, rather than profit or loss. Defined benefit pension plans are not covered by these illustrative financial statements.

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.1 Basis of preparation (Continued)

Commentary (Continued)

FRS and INT FRS effective for annual periods beginning on or after 1 January 2013 (Continued)

FRS 107 (Amendment) – *Offsetting Financial Assets and Financial Liabilities*

The amendments introduce additional disclosure requirements to include information that will enable users of financial statements to evaluate the effect on financial position of netting arrangements, including rights of set-off associated with recognised financial assets and liabilities.

As the amendments only affect disclosures, there has been no impact on the Group's financial position or financial performance on initial adoption of the amendments on 1 January 2013. The Group has included the additional required disclosures in the financial statements.

FRS 1 (Amendment) – *Presentation of Financial Statements* - Clarification of the requirements for comparative information

The amendment clarifies the requirements for comparative information. If an entity voluntarily provides comparative information beyond the minimum requirements, then it must provide comparative information for related notes. However related notes are not required for the third balance sheet when it is required to be presented under FRS due to retrospective application of an accounting policy, restatement or reclassification of items in the financial statements.

FRS 16 (Amendment) – *Property, Plant and Equipment* - Classification of spare parts and servicing equipment

The amendment clarifies that major spare parts and servicing equipment that meet the definition of property, plant and equipment are not to be treated as inventory.

[Previously the Group classified certain major spare parts as inventory. These spare parts have been reclassified as property, plant and equipment on adoption of the amendments to FRS 16 on 1 January 2013. Depreciation is charged over their expected useful life of 3 years. The change in accounting policy has been applied retrospectively, with the following impact:

	Consolidated statement of financial position Increase/(Decrease)		
	At 31 December 2013 $'000	**At 31 December 2012 $'000**	**At 1 January 2012 $'000**
Property, plant and equipment			
Inventory			

	Consolidated statement of comprehensive income for the financial year ended 31 December Increase/(Decrease)	
	2013 $'000	**2012 $'000**
Depreciation expense		
Profit attributable to:		
Equity holders of the parent		

The adoption of amended FRS 16 does not have any material impact on the basic and diluted EPS of the Group.

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.1 Basis of preparation (Continued)

Commentary (Continued)

FRS and INT FRS effective for annual periods beginning on or after 1 January 2013 (Continued)

FRS 32 (Amendment) – *Financial Instruments: Presentation* – Income Taxes on Distributions to Equity Holders

The amendment clarifies that income tax arising from distributions to equity holders are to be accounted for in accordance with FRS 12 Income Taxes.

Previously the Group accounted for income taxes on distributions to equity holders in equity in accordance with FRS 32. The related income taxes have been restated from equity to profit or loss on adoption of the amendments to FRS 32. The change in accounting policy has been applied retrospectively, with the following impact:

	Consolidated statement of financial position Increase/(Decrease)		
	At 31 December 2013 $'000	**At 31 December 2012 $'000**	**At 1 January 2012 $'000**
Property, plant and equipment			
Inventory			

	Consolidated statement of comprehensive income for the financial year ended 31 December Increase/(Decrease)	
	2013 $'000	**2012 $'000**
Depreciation expense		
Profit attributable to:		
Equity holders of the parent		

The adoption of amended FRS 32 does not have any material impact on the basic and diluted EPS of the Group.

INT FRS 120 – *Stripping Costs in the Production Phase of a Surface Mine*

INT FRS 120 clarifies when and how to account separately for the benefits arising from stripping activity during the production phase of a surface mine, and how to measure these benefits initially and subsequently. Two types of benefits may arise: usable ore that can be used to produce inventory and improved access to further quantities of material that will be mined in the future. The interpretation requires costs that provide improved access to ore to be accounted for as non-current assets when certain criteria are met.

[As the Group's previous treatment of stripping costs was in line with the requirements of the interpretation, there was no impact on the Group's financial position or financial performance on initial adoption of this interpretation on 1 January 2013.]

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.1 Basis of preparation (Continued)

FRS and INT FRS issued but not yet effective

FRS 8: 30, 31

At the date of authorisation of these financial statements, the following FRS and INT FRS that are relevant to the Group were issued but not yet effective:

		Effective date (annual periods beginning on or after)
FRS 27 (Revised)	: *Separate Financial Statements*	1 January 2014
FRS 28 (Revised)	: *Investments in Associates and Joint Ventures*	1 January 2014
FRS 32 (Amendments)	: *Offsetting Financial Assets and Financial Liabilities*	1 January 2014
FRS 36 (Amendments)	: *Recoverable Amount Disclosures for Non-Financial Assets*	1 January 2014
FRS 39 (Amendments)	: *Novation of Derivatives and Continuation of Hedge Accounting*	1 January 2014
FRS 110	: *Consolidated Financial Statements*	1 January 2014
FRS 111	: *Joint Arrangements*	1 January 2014
FRS 112	: *Disclosure of Interests in Other Entities*	1 January 2014
FRS 110, FRS 112 and FRS 27	: *Amendments to FRS 110, FRS 112 and FRS 27: Investment Entities*	1 January 2014
INT FRS 121	: *Levies*	1 January 2014

Consequential amendments were also made to various standards as a result of these new/revised standards.

Except as disclosed below, management anticipates that the adoption of the above FRS and INT FRS in future periods will not have a material impact on the financial statements of the Group in the period of their initial adoption.

FRS 110 *Consolidated Financial Statements* and FRS 27 *Separate Financial Statements*

FRS 110 replaces the control assessment criteria and consolidation requirements currently in FRS 27 and INT FRS 12, Consolidation – Special Purpose Entities. FRS 110 defines the principle of control and establishes a new control model as the basis for determining which entities are consolidated in the consolidated financial statements. FRS 27 remains as a standard applicable only to separate financial statements. On adoption of FRS 110 management will be required to exercise more judgement than under the current requirements of FRS 27 in order to determine which entities are controlled by the Group. These changes will take effect from the financial year beginning on **[1 January 2014]** with full retrospective application.

[Management is currently in the process of determining the impact on the Group, but does not expect that there will be any changes to the entities being consolidated by the Group.]

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.1 Basis of preparation (Continued)

FRS and INT FRS issued but not yet effective (Continued)

FRS 111 *Joint Arrangements* and FRS 28 *Investments in Associates and Joint Ventures*

FRS 111 supersedes FRS 31, Interest in Joint Ventures, and INT FRS 13, Jointly Controlled Entities – Non-Monetary Contributions by Ventures. FRS 111 classifies a joint arrangement as either a joint operation or a joint venture based on the parties' rights and obligations under the arrangement. Under FRS 111 all joint ventures must be accounted for under the equity method, as described in the revised FRS 28, with proportionate consolidation prohibited. These changes will take effect from the financial year beginning on **[1 January 2014]** with full retrospective application.

[The Group anticipates that its investment in ABC (M) Sdn Bhd, currently classified as a jointly controlled entity under FRS 31, will be classified as a joint venture under FRS 111. As the Group currently uses proportionate consolidation for its joint by controlled entity, a change in accounting policy will be required on adoption of FRS 111 to use the equity method which will have an impact on the statement of financial position. The Group will treat the aggregate carrying amounts of its proportionately consolidated assets and liabilities (including any goodwill arising from acquisition) as its equity-accounted investment in joint venture. These assets and liabilities are disclosed in Note 18. The Group does not expect any material net impact on its financial position or performance an initial adoption].

FRS 112 *Disclosure of Interests in Other Entities*

FRS 112 is a new standard which prescribes comprehensive disclosure requirements for all types of interests in other entities. It requires an entity to disclose information that helps users to assess the nature and financial effects of relationships with subsidiaries, associates, joint arrangements and unconsolidated structured entities. This new standard is likely to result in more extensive disclosures in the financial statements, however, there will be no impact on the financial position or financial performance of the Group on initial adoption of the standard in the financial year beginning on **[1 January 2014]**.

Commentary

FRS 8:30 requires disclosure of standards or interpretations that have been issued which are not yet effective; and known or reasonably estimable information to assess the possible impact in the period of initial application.

The list of FRS and INT FRS issued but not effective reflects the situation as at 31 December 2013. Any other new or revised FRSs, INT FRSs and amendments issued after that date, but before the date of authorisation of the financial statements, should also be disclosed.

It is not necessary to list out all new and revised standards and interpretations in issue, only those that are relevant. Where none are expected to have any material impact, the following illustrative disclosure could be considered.

Certain new standards, amendments and interpretations to FRSs have been issued and are relevant for the Group's accounting periods beginning on or after 1 January 2014 or later periods and which the Group has not early adopted. Management does not expect them to have any material impact on the Group's financial position or financial performance when adopted.

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.1 Basis of preparation (Continued)

FRS and INT FRS issued but not yet effective (Continued)

Illustrative disclosures on some of the other standards issued but not yet effective that can be considered if they are likely to have a material impact are as follows:

FRS 32 (Amendments) - *Offsetting Financial Assets and Financial Liabilities*

The amendments to FRS 32 clarify the guidance on criteria that an entity currently has a legally enforceable right to set-off financial assets and financial liabilities; and criteria that an entity intends either to settle on a net basis or to realise the asset and settle the liability simultaneously. These changes will take effect from the financial year beginning on **[1 January 2014]**.

[The Group does not expect the adoption of the amendments to result in changes to the situations in which financial assets and liabilities are currently offset and hence does not expect any impact on its financial position or financial performance on initial adoption of the amendments].

Amendments to FRS 110, FRS 112 and FRS 27 - *Investment Entities*

The amendments to FRS 110 define an investment entity and require a reporting entity that meets the definition of an investment entity not to consolidate its subsidiaries, but instead to measure its subsidiaries at fair value through profit or loss in accordance with FRS 39 Financial Instruments: Recognition and Measurement in its consolidated and separate financial statements.

Consequential amendments have also been made to FRS 112 and FRS 27 to introduce news disclosure requirements for investment entities.

[The Group does not anticipate that the amendments will have any effect on the Group's consolidated financial statements as the Company is not an investment entity].

INT FRS 121 – *Levies*

The interpretation clarifies that the obligating event that gives rise to a liability to pay a levy is the activity that triggers the payment of the levy, as identified by the legislation.

[The Group does not expect there to be any impact on the timing or recognition of the Group's levies when this interpretation is first adopted in the financial year beginning on [1 January 2014].

Amendments to FRS 36 – *Recoverable Amount Disclosures for Non-Financial Assets*

Note – ABC Singapore Limited has early adopted these amendments in 2013. If the amendments are not early adopted by an entity, the amendments should be considered for disclosure under standards issued but not yet effective. Refer to details above.

Amendments to FRS 39 – *Novation of Derivatives and Continuation of Hedge Accounting*

The amendments allow the continuation of hedge accounting (subject to meeting certain criteria) in instances where a derivative is required by law or regulation to be novated to a central counterparty (CCP) or an entity acting in a similar capacity.

Note – There is probably no need to mention this amendment if the entity is in a jurisdiction where derivatives are not required to be novated to a central counterparty (CCP) or an entity acting in a similar capacity.

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.2 Basis of consolidation

RS 27: 12, 13

The consolidated financial statements incorporate the financial statements of the Company and its subsidiaries. Subsidiaries are entities (including special purposes entities) over which the Company has the power to govern the financial and operating policies, generally accompanied by a shareholding giving rise to the majority of the voting rights, so as to obtain benefits from their activities.

FRS 27: 26

Subsidiaries are consolidated from the date on which control is transferred to the Group up to the effective date on which control ceases, as appropriate.

FRS 27: 20, 21

Intra-group balances and transactions and any unrealised income and expenses arising from intra-group transactions are eliminated on consolidation. Unrealised losses may be an impairment indicator of the asset concerned.

FRS 27: 22, 24

The financial statements of the subsidiaries are prepared for the same reporting period as that of the Company, using consistent accounting policies. Where necessary, accounting policies of subsidiaries are changed to ensure consistency with the policies adopted by other members of the Group.

FRS 27: 27, 28

Non-controlling interests in subsidiaries relate to the equity in subsidiaries which is not attributable directly or indirectly to the owners of the parent. They are shown separately in the statements of comprehensive income, financial position and changes in equity.

FRS 103: 19

Non-controlling interests in the acquiree that are a present ownership interest and entitle its holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the fair value, of the acquiree's identifiable net assets. The choice of measurement basis is made on an acquisition-by-acquisition basis. Subsequent to acquisition, the carrying amount of non-controlling interests is the amount of those interests at initial recognition plus the non-controlling interests' share of subsequent changes in equity. Total comprehensive income is attributed to non-controlling interests even if this results in the non-controlling interests having a deficit balance.

FRS 27: 30, 31

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

FRS 27: 34, 35

When the Group loses control of a subsidiary it derecognises the assets and liabilities of the subsidiary and any non-controlling interest. The profit or loss on disposal is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. Amounts previously recognised in other comprehensive income in relation to the subsidiary are accounted for (i.e. reclassified to profit or loss or transferred directly to retained earnings) in the same manner as would be required if the relevant assets or liabilities were disposed of. The fair value of any investments retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under FRS 39 *Financial Instruments: Recognition and Measurement* or, when applicable, the cost on initial recognition of an investment in an associate or jointly controlled entity.

FRS 27: 36,37

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.2 Basis of consolidation (Continued)

FRS 27: 38

In the separate financial statements of the Company, investments in subsidiaries, associates and joint ventures are carried at cost, less any impairment loss that has been recognised in profit or loss.

Commentary

FRS 103: 19

Measurement of non-controlling interest

The measurement election is made for each individual business combination and does not constitute an accounting policy choice for similar transactions. The two options potentially result in significantly different amounts of goodwill and equity.

Where applicable, consider the following additional specific accounting policy illustrations:

- *The Group has not elected to use fair value in acquisitions completed to date.*
- *Other components of non-controlling interest, such as outstanding share options, are measured at fair value.*

Exemption from consolidation

FRS 27: 42(a)

In the event where the Company is exempted from preparing consolidated financial statements and elects to prepare separate financial statements, the Company shall disclose this fact, the name and country of incorporation or residence of the entity whose consolidated financial statements have been produced for public use as well as the address where those consolidated financial statements are obtainable. The following is an illustration of disclosure to be considered:

These financial statements are the separate financial statements of ABC Singapore Limited. The Company is exempted from the preparation of consolidated financial statements as the Company is a wholly-owned subsidiary of [name of ultimate holding company], a Singapore-incorporated company, which produces consolidated financial statements available for public use. The registered office of [name of ultimate holding company] is at _____________.

2.3 Business combinations

Business combinations from 1 January 2010

FRS 103: 4; 37
FRS 103: 53
FRS 103: 39

The acquisition of subsidiaries is accounted for using the acquisition method. The consideration transferred for the acquisition is measured at the aggregate of the fair values, at the date of exchange, of assets given, liabilities incurred or assumed, and equity instruments issued by the Group in exchange for control of the acquiree. Acquisition-related costs are recognised in profit or loss as incurred. Consideration also includes the fair value of any contingent consideration. Contingent consideration classified as a financial liability is remeasured subsequently to fair value through profit or loss.

FRS 103: 18, 20

The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under FRS 103 are recognised at their fair values at the acquisition date.

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.3 Business combinations (Continued)

Business combinations from 1 January 2010 (Continued)

FRS 103: 42 Where a business combination is achieved in stages, the Group's previously held interests in the acquired entity are remeasured to fair value at the acquisition date (i.e. the date the Group attains control) and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss, where such treatment would be appropriate if that interest were disposed of.

FRS 103: 32 Goodwill arising on acquisition is recognised as an asset at the acquisition date and initially measured at the excess of the sum of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of the acquirer's previously held equity interest (if any) in the entity over net acquisition-date fair value amounts of the identifiable assets acquired and the liabilities and contingent liabilities assumed.

FRS 103: 34 If, after reassessment, the net fair value of the acquiree's identifiable net assets exceeds the sum of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of the acquirer's previously held equity interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Commentary

The illustrated accounting policies for business combinations apply to business combinations from 1 January 2010. If a Group have business combinations prior to 1 January 2010, the following additional illustrative accounting policies can be considered:

Business combinations before 1 January 2010

In comparison to the above mentioned requirements, the following differences applied:

Business combinations were accounted for by applying the purchase method. Transaction costs directly attributable to the acquisition formed part of the acquisition costs. The non-controlling interest (formerly known as minority interest) was measured at the proportionate share of the acquiree's identifiable net assets.

Business combinations achieved in stages were accounted for as separate steps. Adjustments to those fair values relating to previously held interests were treated as a revaluation and recognised in equity.

Contingent consideration was recognised if, and only if, the Group had a present obligation, the economic outflow was probable and a reliable estimate was determinable. Subsequent measurements to the contingent consideration affected goodwill.

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.3 Business combinations (Continued)

Commentary

Business combinations involving entities under common control

Where a business combination involves entities or businesses under common control, it is outside the scope of FRS 103 and may be accounted for using the pooling of interest method or the acquisition method (when the transaction has substance from the perspective of the reporting entity). The following is an illustrative accounting policy where the pooling of interest method is applied:

RAP 12: 9

Business combinations involving entities under common control are accounted for by applying the pooling of interest method which involves the following:

- The assets and liabilities of the combining entities are reflected at their carrying amounts.
- No adjustments are made to reflect the fair values, or recognise any new assets or liabilities.
- No goodwill is recognised as a result of the combination.
- Any difference between the consideration paid/transferred and the equity 'acquired' is reflected within the equity as merger reserve.
- The statement of comprehensive income reflects the results of the combining entities for the full year, irrespective of when the combination took place.
- Comparatives are presented as if the entities had always been combined since the date the entities had come under common control.

FRS 103: 56

Contingent liabilities recognised in a business combination

Where there are contingent liabilities assumed in the business combination, the following illustrative accounting policy may be considered:

A contingent liability recognised in a business combination is initially measured at its fair value. Subsequently, it is measured at the higher of:

- The amount that would be recognised in accordance with the accounting policy for provisions set out in Note 2.23; or
- The amount initially recognised less, when appropriate, cumulative amortisation recognised in accordance with guidance for revenue recognition.

FRS 18: 9, 10

2.4 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is presented net of estimated customer returns, rebates, other similar allowances and sales related taxes.

FRS 18: 14

Sale of goods

This refers to the sale of audio systems and speaker products to whole-sale distributors and retailers.

Revenue from the sale of goods is recognised when the Group has transferred to the buyer the significant risks and rewards of ownership of the goods and it is probable that the agreed consideration will be received. Normally these criteria are considered to be met when the goods are delivered to and accepted by the buyer.

Both audio systems and speaker products are sold with a warranty. The group recognises revenue at the time of delivery, net of a provision based on past experience and projections (Note 3.2).

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.4 Revenue recognition (Continued)

FRS 18: 20

Rendering of services

Revenue from a contract to provide services is recognised by reference to the stage of completion of the contract provided the amount of revenue, stage of completion and associated cost can be measured reliably and it is probable that the consideration will be received. The stage of completion of the contract is determined as follows:

- installation fees are recognised by reference to the stage of completion of the installation, determined as the proportion of the total time expected to install that has elapsed at the end of the financial year; and
- revenue from construction contracts is recognised in accordance with the Group's accounting policy on construction contracts (see below).

Interest income

FRS 18: 30(a)

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

Dividend income

FRS 18: 30 (c)

Dividend income from investments is recognised when the shareholders' rights to receive payment have been established.

Royalties

FRS 18: 30 (b)

Royalty income is recognised on an accrual basis in accordance with the substance of the relevant agreement. Royalties determined on a time basis are recognised on a straight-line basis over the period of the agreement. Royalty arrangements that are based on production, sales and other measures are recognised by reference to the underlying arrangement.

Rental income

FRS 17: 50;
INT FRS 15: 4

Rental income from investment property is recognised on a straight-line basis over the term of the relevant lease.

An accounting policy should be included for each significant source of revenue and should be tailored to the particular circumstances of the entity concerned, focusing particularly on the more judgemental aspects of revenue recognition such as provisions for returns or discounts.

2.5 Borrowing costs

FRS 23: 8

FRS 23: 12
FRS 23: 14

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Borrowing costs on general borrowings are capitalised by applying a capitalisation rate to construction or development expenditures that are financed by general borrowings. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

FRS 23: 8

All other borrowing costs are recognised in profit or loss in the period in which they are incurred using the effective interest method.

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.6 Retirement benefit costs

FRS 19: 44

Payments to defined contribution plans are charged as an expense as they fall due. Payments made to state-managed retirement benefit schemes, such as the Singapore Central Provident Fund, are dealt with as payments to defined contribution plans where the Group's obligations under the plans are equivalent to those arising in a defined contribution plan.

2.7 Employee leave entitlements

FRS 19: 11, 13

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated undiscounted liability for annual leave expected to be settled wholly within 12 months from the reporting date as a result of services rendered by employees up to the end of the financial year.

Commentary

Other employee benefits

These illustrative financial statements do not cover the accounting for defined benefit pension plans under FRS 19 *Employee Benefits*.

Where applicable and material, the following additional illustrative accounting policies on other aspects of employee benefits can be considered:

Other employee service benefits

Other employee benefits that are expected to be settled wholly within 12 months from the reporting date are presented as current liabilities and recognised at carrying value.

FRS 19: 155, 156

Employee entitlements to leave and other employee benefits that are not expected to be settled wholly within 12 months after the end of the reporting period are presented as non-current liabilities and calculated using the projected unit credit method and then discounted using yields available high quality corporate bonds that have maturity dates approximating to the expected remaining period to settlement. The net total of service costs, net interest on the liability and remeasurement of the liability are recognised in profit or loss.

Termination benefits

FRS 19: 8

FRS 19: 165

Termination benefits comprise benefits payable when employment is terminated before the normal retirement date, or whenever an employee accepts voluntary redundancy in exchange for such benefits. Termination benefits are recognised when the Group is committed to either terminating the employment of current employees based on a formal plan without the possibility of withdrawal; or providing termination benefits as a result of an offer made encourage voluntary redundancy.

FRS 19: 169

Initial recognition and subsequent changes to the expense and liability for termination benefits are measured in line with the accounting policies disclosed above for other short-term and long-term employee benefits.

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.8 Taxes

FRS 12: 6 Income tax expense represents the sum of the tax currently payable and deferred tax.

Current income tax

FRS 12: 5 The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit reported as profit or loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are not taxable or tax deductible. FRS 12: 46 The Group's liability for current tax is recognised at the amount expected to be paid or recovered from the tax authorities and is calculated using tax rates (and tax laws) that have been enacted or substantively enacted in countries where the Company and subsidiaries operate by the end of the financial year.

FRS 12: 58, 61A Current income taxes are recognised in profit or loss, except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity.

Deferred tax

FRS 12: 5 Deferred tax is recognised on all temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary FRS 12: 24 FRS 12: 15 difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

FRS 12: 39 Deferred tax liabilities are recognised on taxable temporary differences arising on investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

FRS 12: 56 The carrying amount of deferred tax assets is reviewed at the end of each financial year and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

FRS 12: 47 Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realised based on the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the financial year

FRS 12: 51 The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the group expects to recover or settle its assets and liabilities, except for investment properties at fair value which are presumed to be recovered through sale.

FRS 12: 74 Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.8 Taxes (Continued)

FRS 12: 58, 61A

FRS 12: 66

Deferred tax is recognised in profit or loss, except when it relates to items recognised outside profit or loss, in which case the tax is also recognised either in other comprehensive income or directly in equity, or where it arises from the initial accounting for a business combination. Deferred tax arising from a business combination, is taken into account in calculating goodwill on acquisition.

Sales tax

FRS 18: 8

Revenue, expenses and assets are recognised net of the amount of sales tax except:

- when the sales tax that is incurred on purchase of assets or services in not recoverable from the tax authorities, in which case the sales tax is recognised as part of cost of acquisition of the asset or as part of the expense item as applicable; and
- Receivables and payables that are stated with the amount of sales tax included.

2.9 Dividends

FRS 10: 12, 13
FRS 32: 35

Equity dividends are recognised when they become legally payable. Interim dividends are recorded in the financial year in which they are declared payable. Final dividends are recorded in the financial year in which dividends are approved by shareholders.

2.10 Foreign currency transactions and translation

FRS 21: 21

FRS 21: 23

In preparing the financial statements of the individual entities, transactions in currencies other than the entity's functional currency are recorded at the rate of exchange prevailing on the date of the transaction. At the end of each financial year, monetary items denominated in foreign currencies are retranslated at the rates prevailing as of the end of the financial year. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

FRS 21: 28

FRS 21: 30

Exchange differences arising on the settlement of monetary items, and on retranslation of monetary items are included in profit or loss for the period. Exchange differences arising on the retranslation of non-monetary items carried at fair value are included in profit or loss for the period except for differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognised directly in equity. For such non-monetary items, any exchange component of that gain or loss is also recognised directly in equity.

FRS 21: 39

For the purpose of presenting consolidated financial statements, the assets and liabilities of the Group's foreign operations (including comparatives) are expressed in Singapore dollars using exchange rates prevailing at the end of the financial year. Income and expense items (including comparatives) are translated at the average exchange rates for the period, unless exchange rates fluctuated significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, are recognised initially in other comprehensive income and accumulated in the Group's foreign exchange reserve.

FRS 21: 32

On consolidation, exchange differences arising from the translation of the net investment in foreign entities (including monetary items that, in substance, form part of the net investment in foreign entities), and of borrowings and other currency instruments designated as hedges of such investments, are taken to the foreign exchange reserve.

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.10 Foreign currency transactions and translation (Continued)

FRS 21: 48

On disposal of a foreign operation, the accumulated foreign exchange reserve relating to that operation is reclassified to profit or loss.

FRS 21: 47

Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the closing rate.

2.11 Property, plant and equipment

FRS 16: 15
FRS 16: 16

All items of property, plant and equipment are initially recognised at cost. The cost includes its purchase price and any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Dismantlement, removal or restoration costs are included as part of the cost if the obligation for dismantlement, removal or restoration is incurred as a consequence of acquiring or using the property, plant and equipment.

FRS 16: 31

Land and buildings are subsequently stated at their revalued amounts, being the fair value at the date of revaluation, less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

FRS 16: 31

Land and buildings are revalued by independent professional valuers with sufficient regularity such that the carrying amounts do not differ materially from those which would be determined using fair values at the end of the financial year.

FRS 16: 39
FRS 16: 40

Any revaluation increase arising from the revaluation of such land and buildings is recognised in other comprehensive income and credited to the revaluation reserve, except to the extent that it reverses a revaluation decrease for the same asset previously recognised in profit or loss, in which case the increase is credited to profit or loss to the extent of the decrease previously charged. A decrease in carrying amount arising on the revaluation of such land and buildings is charged to profit or loss to the extent that it exceeds the balance, if any, held in the revaluation reserve relating to a previous revaluation of that asset.

FRS 16: 35(b)

Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset.

FRS 16: 30

Plant and equipment are subsequently stated at cost less accumulated depreciation and any accumulated impairment losses.

FRS 16: 50
FRS 16: 73(b)
FRS 16: 73(c)

Depreciation is charged so as to write off the cost or valuation of assets, other than land and properties under construction, over their estimated useful lives, using the straight-line method, on the following bases:

Leasehold land	1% to 2%
Buildings	2% to 4%
Plant machinery and equipment	20%
Motor vehicles	33.33%
Computers and software	33.33%
Furniture and fittings	20%

No depreciation is charged on construction-in-progress as they are not yet in use as at the end of the financial year.

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.11 Property, plant and equipment (Continued)

FRS 36: 9 The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

FRS 16: 51, 61 The estimated useful lives, residual values and depreciation methods are reviewed, and adjusted as appropriate, at the end of each financial year.

FRS 17: 27 Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets or, if there is no certainty that the lessee will obtain ownership by the end of the lease term, the asset shall be fully depreciated over the shorter of the lease term and its useful life.

FRS 16: 67 An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal.

FRS 16: 41 The gain or loss arising on disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss. Any amount in the revaluation reserve relating to that asset is transferred to retained earnings directly.

2.12 Investment property

FRS 40: 20
FRS 40: 33, 35 Investment property, which is property held to earn rentals and/or for capital appreciation, is measured initially at its cost, including transaction costs. Subsequent to initial recognition, investment property is measured at fair value. Gains or losses arising from changes in the fair value of investment property are included in profit or loss for the period in which they arise.

Investment property is subject to renovations or improvements at regular intervals. The costs of major renovations and improvements are capitalised as additions and the carrying amounts of the replaced components are written off to profit or loss. The costs of maintenance, repairs and minor improvement are charged to profit or loss when incurred.

FRS 40: 66 On disposal or retirement of an investment property, the difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss.

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.12 Investment property (Continued)

Commentary

FRS 40: 75(c)
FRS 1: 122

(i) When significant judgement is needed to determine the portions of investment property, owner-occupied property and property held for sale in the ordinary course of business, the criteria used to distinguish them and the judgements involved should be disclosed.

FRS 40: 6

FRS 40: 75(b)

(ii) A property interest that is held by a lessee under an operating lease may be classified and accounted for as an investment property, if and only if, the property would otherwise meet the definition of an investment property and the lessee uses the fair value model to account for the asset recognised. Once this classification is selected for the property held under the operating lease, all properties classified as investment property shall be accounted for using the fair value model. The entity shall disclose in what circumstances that the property interests held under operating leases are classified and accounted for as investment property.

FRS 40: 30, 34

(iii) The entity can choose to apply the fair value model or the cost model to its investment property except where the entity classifies a property interest held by it under an operating lease as investment property.

Where the entity chooses the cost model, the following illustrative accounting policy may be considered:

FRS 40: 56

FRS 40: 79(a), (b)

Investment property, which is property held to earn rentals and/or for capital appreciation is initially recognised at cost and subsequently carried at cost less accumulated depreciation and impairment losses. Depreciation is charged, using the straight-line method, so as to write off the cost over their estimated useful lives of [ ] years. The residual values, useful lives and depreciation method of investment properties are reviewed and adjusted as appropriate, at the end of each financial year. The effects of any revision are included in profit or loss when the changes arise.

FRS 40: 79(e)

(iv) Under the cost model, the fair value of investment property shall be disclosed at the end of each financial year. In exceptional cases where the entity cannot determine the fair value of investment property reliably, it shall disclose:

(a) A description of the investment property;
(b) An explanation of why fair value cannot be determined reliably; and
(c) If possible, the range of estimates within fair value is highly likely to lie.

2.13 Intangible assets

Goodwill

FRS 103: 32

Goodwill arising on the acquisition of a subsidiary represents the excess of the consideration transferred (see Note 2.3), the amount of any non-controlling interests in the acquiree and the acquisition date fair value of any previously held equity interest in the acquiree over the acquisition date fair value of the identifiable assets, liabilities and contingent liabilities of the subsidiary recognised at the date of acquisition. Goodwill on acquisition of subsidiaries prior to 1 January 2010 and jointly controlled entities represents the excess of the cost of acquisition over the fair value of the Group’s share of the identifiable net assets acquired.

FRS 103: 54

Goodwill on subsidiaries and jointly controlled entities is initially recognised as an asset at cost and is subsequently measured at cost less any accumulated impairment losses.

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.13 Intangible assets (Continued)

Goodwill (Continued)

FRS 36: 80
FRS 36: 90
FRS 36: 124

For the purpose of impairment testing, goodwill is allocated to each of the Group's cash-generating units expected to benefit from the synergies of the combination. Cash-generating units to which goodwill has been allocated are tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit. An impairment loss recognised for goodwill is not reversed in a subsequent period.

FRS 28: 23(a)
FRS 28: 23(b)

Goodwill on associates is included in the carrying amount of the investment and is assessed for impairment as part of the investment. Any excess of the Group's share of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition, after reassessment, is recognised immediately in profit or loss.

FRS 36: 86(a)

On disposal of a subsidiary, jointly controlled entity or an associate, the attributable amount of goodwill is included in the determination of the gain or loss on disposal.

Computer software licences

FRS 38: 24, 27

Acquired computer software licences are initially capitalised at cost which includes the purchase price (net of any discounts and rebates) and other directly attributable costs of preparing the software for its intended use. Direct expenditure which enhances or extends the performance of computer software beyond its specifications and which can be reliably measured is added to the original cost of the software. Costs associated with maintaining computer software are recognised as an expense as incurred.

FRS 38: 74
FRS 38: 97

Computer software licences are subsequently carried at cost less accumulated amortisation and accumulated impairment losses. These costs are amortised to profit or loss using the straight-line method over their estimated useful lives of 3 years.

Research and development

FRS 38: 54

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

FRS 38: 57

An internally-generated intangible asset arising from development (or from the development phase of an internal project) is recognised, if, and only if, all the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- the intention to complete the intangible asset and use or sell it;
- the ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible assets; and
- the ability to measure reliably the expenditure attributable to the intangible asset during its development.

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.13 Intangible assets (Continued)

FRS 38: 65

The amount initially recognised for internally-generated intangible assets is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognised, development expenditure is charged to profit or loss in the period in which it is incurred.

FRS 38: 97

Subsequent to initial recognition, internally-generated intangible assets are reported at cost less accumulated amortisation and accumulated impairment losses. Amortisation is charged using the straight-line method over the periods the Group expects to benefit from selling the products developed, ranging from 5 to 8 years.

FRS 38: 104

The amortisation period and amortisation method of intangible assets other than goodwill are reviewed at least at the end of each financial year. The effects of any revisions are recognised in profit or loss when the changes arise.

Commentary

The following illustrative accounting policies may be considered where applicable:

FRS 38: 107

(i) Club memberships

Club memberships are stated at cost less any impairment loss.

FRS 38: 74
FRS 38: 97

(ii) Trademarks and licences

Trademarks and licences are stated at cost less accumulated amortisation and accumulated impairment losses. These costs are amortised to profit or loss using the straight-line method over 15 to 20 years, which is the shorter of their estimated useful lives and periods of contractual rights.

FRS 38: 33, 34

(iii) Intangible assets acquired in a business combination

Intangible assets acquired in a business combination are identified and recognised separately from goodwill if the assets and their fair values can be measured reliably. The cost of such intangible assets is their fair value as at the acquisition date.

FRS 38: 74

Subsequent to initial recognition, intangible assets acquired in a business combination are reported at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets acquired separately.

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.14 Associates

FRS 28: 2

An associate is an entity over which the Group has significant influence, but that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

FRS 28: 13
FRS 28: 11

The results and assets and liabilities of associates are incorporated in these financial statements using the equity method of accounting. Under the equity method, investments in associates are carried in the consolidated statement of financial position at cost as adjusted for post-acquisition changes in the Group's share of the net assets of the associate, less any impairment loss of individual investments. Any premium paid for an associate above the fair value at the group's share of identifiable net assets is included in the carrying amount of the associate.

FRS 28: 29, 30

Losses of an associate in excess of the Group's interest in that associate (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate) are not recognised, unless the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

FRS 28: 22

Where a Group entity transacts with an associate of the Group, profits and losses are eliminated to the extent of the Group's interest in the relevant associate. This applies to unrealised losses which are also eliminated but only to the extent that there is no impairment.

2.15 Joint ventures

FRS 31: 3

A joint venture is a contractual arrangement whereby the Group and other parties undertake an economic activity that is subject to joint control, which is when the strategic financial and operating policy decisions relating to the activities require the unanimous consent of the parties sharing control.

FRS 31: 24
FRS 31: 30

Joint venture arrangements that involve the establishment of a separate entity in which each venturer has an interest are referred to as jointly controlled entities. The Group reports its interests in jointly controlled entities using proportionate consolidation. The Group's share of the assets, liabilities, income and expenses of jointly controlled entities are combined with the equivalent items in the consolidated financial statements on a line-by-line basis.

Any goodwill arising on the acquisition of the Group's interest in a jointly controlled entity is accounted for in accordance with the Group's accounting policy for goodwill in Note 2.13 (see above).

FRS 31: 49

Where the Group transacts with its jointly controlled entities, unrealised profits are eliminated to the extent of the Group's interest in the joint venture. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no impairment.

Commentary

FRS 31: 38

Jointly-controlled entities may also be consistently accounted for using the equity method and when so, the policy described in Note 2.14 can be considered.

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.16 Impairment of non-financial assets excluding goodwill

FRS 36: 9
FRS 36: 22

At the end of each financial year, the Group reviews the carrying amounts of its non-financial assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

FRS 36: 24

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment annually, and whenever there is an indication that the asset may be impaired.

FRS 36: 6
FRS 36: 30, 31

The recoverable amount of an asset or cash-generating unit is the higher of its fair value less costs to sell and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

FRS 36: 59
FRS 36: 60

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

FRS 36: 114
FSR 36: 117
FRS 36: 119

Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

2.17 Financial instruments

FRS 39:14

Financial assets and financial liabilities are recognised on the Group's consolidated statement of financial position when the Group becomes a party to the contractual provisions of the instrument.

Financial assets

FRS 39: 9

Financial assets are classified into the following specified categories: financial assets at fair value through profit or loss, held-to-maturity investments, loans and receivables and available-for-sale financial assets. The classification depends on the nature and purpose for which these financial assets were acquired and is determined at the time of initial recognition.

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.17 Financial instruments (Continued)

Financial assets (Continued)

FRS 39: 9

Financial assets are classified into the following specified categories: financial assets at fair value through profit or loss, held-to-maturity investments, loans and receivables and available-for-sale financial assets. The classification depends on the nature and purpose for which these financial assets were acquired and is determined at the time of initial recognition.

Financial assets at fair value through profit or loss (FVTPL)

FRS 39: 9

Financial assets are classified as FVTPL if the financial asset is either held for trading or is designated as such upon initial recognition.

A financial asset is classified as held-for-trading if it has been acquired principally for the purpose of selling in the short term; or if it is part of an identified portfolio of financial instruments with a recent actual pattern of short-term profit-taking and which is managed by the Group; or if it is a derivative that is not designated and effective as a hedging instrument. The Group has not designated any financial assets as FVTPL upon initial recognition.

FRS 39: 55(a)
FRS 107: AGB5(e)

Financial assets at FVTPL are stated at fair value, with any resultant gain or loss recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset.

Held-to-maturity investments

FRS 39: 9, 46(b), 56

Bonds with fixed or determinable payments and fixed maturity dates where the Group has a positive intent and ability to hold to maturity are classified as held-to-maturity investments. Held-to-maturity investments are recorded at amortised cost using the effective interest method, less impairment, with revenue recognised on an effective yield basis.

Loans and receivables

FRS 39: 9, 46(a), 56

Non-derivative financial assets which have fixed or determinable payments that are not quoted in an active market are classified as loans and receivables. Loans and receivables are measured at amortised cost, using the effective interest method, less impairment. Interest is recognised by applying the effective interest rate, except for short-term receivables when the recognition of interest would be immaterial.

The Group’s loans and receivables in the statement of financial position comprise trade and other receivables and cash and bank balances.

Available-for-sale financial assets (AFS)

FRS 39: 9, 46, 55(b)

FRS 107: AGB5(b)

Certain shares and debt securities held by the Group are classified as AFS if they are not classified in any of the other categories. Subsequent to initial recognition, they are measured at fair value and changes therein are recognised in other comprehensive income and accumulated in the available-for-sale reserve, with the exception of impairment losses, interest calculated using the effective interest method and foreign exchange gains and losses which are recognised in profit or loss. Where the investment is disposed of or is determined to be impaired, the cumulative gain or loss previously recognised in the available-for-sale reserve is included in profit or loss for the period.

FRS 39: 46(c)

Investments in equity instruments whose fair value cannot be reliably measured are measured at cost less any impairment loss.

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.17 Financial instruments (Continued)

Financial assets (Continued)

Impairment of financial assets

FRS 39: 58

Financial assets, other than FVTPL, are assessed for indicators of impairment at the end of each financial year. Financial assets are impaired where there is objective evidence that the estimated future cash flows of the investment have been impacted.

FRS 39: 63

For financial assets carried at amortised cost, the amount of the impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate.

FRS 39: 63

The carrying amounts of all financial assets are reduced by the impairment loss directly with the exception of trade receivables where the carrying amount is reduced through the use of an allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss.

FRS 39: 65, 69, 70

With the exception of available-for-sale equity instruments, if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment loss was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

FRS 39: 67, 68, 66

In respect of available-for-sale equity instruments, any subsequent increase in fair value after an impairment loss is recognised directly in equity, except for impairment losses on equity instruments at cost which are not reversed.

Derecognition of financial assets

FRS 39: 17, 20

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

FRS 39: 26

On derecognition, any difference between the carrying amount and the sum of proceeds received and amounts previously recognised in other comprehensive income is recognised in profit or loss.

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.17 Financial instruments (Continued)

Financial assets (Continued)

Commentary

FRS 39: 9

Effective interest method (optional disclosure)

The effective interest method is a method of calculating the amortised cost of a financial instrument and allocating the interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments (including all fees on points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial instrument, or where appropriate, a shorter period, to the net carrying amount of the financial instrument. Income and expense are recognised on an effective interest basis for debt instruments other than those financial instruments at fair value through profit or loss.

FRS 39: 43

Trade date versus settlement date

Regular way purchases can be recognised using either trade date or settlement date accounting. If material, the following illustrative accounting policy can be considered:

All financial assets are recognised on a trade date where the purchase of a financial asset is under a contract whose terms require delivery of the financial asset within the timeframe established by the market concerned, and are initially measured at fair value, plus transaction costs, except for those financial assets classified as at fair value through profit or loss, which are initially measured at fair value.

Financial liabilities and equity instruments

Classification as debt or equity

FRS 39: 14
FRS 32: 15

Financial liabilities and equity instruments issued by Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity instruments

FRS: 32:11, 37

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs. The Group classifies ordinary shares as equity instruments.

FRS 32: 33

When shares recognised as equity are reacquired, the amount of consideration paid is recognised directly in equity. Reacquired shares are classified as treasury shares and presented as a deduction from total equity. No gain or loss is recognised in profit or loss on the purchase, sale issue or cancellation of treasury shares.

CA 76G

When treasury shares are subsequently cancelled, the cost of treasury shares are deducted against the share capital account if the shares are purchased out of capital of the Company, or against the retained earnings of the Company if the shares are purchased out of earnings of the Company.

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.17 Financial instruments (Continued)

Financial liabilities and equity instruments (Continued)

FRS 32: 33 When treasury shares are subsequently sold or reissued the cost of treasury shares is reversed from the treasury share account and the realised gain or loss on sale or reissue, net of any directly attributable incremental transaction costs and related income tax, is recognised in the capital reserve of the Company.

Financial liabilities

FRS 39: 9 Financial liabilities are classified as either financial liabilities at fair value through profit or loss or other financial liabilities.

Financial liabilities are classified as at fair value through profit or loss if the financial liability is either held for trading, including derivatives not designated and effective as a hedging instrument; or it is designated as such upon initial recognition. The Group has not designated any financial liabilities as FVTPL upon initial recognition.

Other financial liabilities

Trade and other payables

FRS 39: 43, 47 Trade and other payables, excluding advances received, are initially measured at fair value, net of transaction costs, and are subsequently measured at amortised cost, where applicable, using the effective interest method.

Borrowings

FRS 39: 43, 47 Interest-bearing bank loans and overdrafts are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognised over the term of the borrowings in accordance with the Group's accounting policy for borrowing costs (see above).

Financial guarantee contracts

FRS 39: 9 The Company has issued corporate guarantees to banks for borrowings of certain subsidiaries and these guarantees qualify as financial guarantees because the Company is required to reimburse the banks if these subsidiaries breach any repayment term.

FRS 39: 43
FRS 39: 47(c) Financial guarantee contract liabilities are measured initially at their fair values plus transaction costs and subsequently at the higher of the amount of the obligation under the contract recognised as a provision in accordance with FRS 37 *Provisions, Contingent Liabilities and Contingent Assets* and the amount initially recognised, less cumulative amortisation in accordance with FRS 18 *Revenue*.

Derecognition of financial liabilities

FRS 39: 39 The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire. The difference between the carrying amount and the consideration paid is recognised in profit or loss.

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.17 Financial instruments (Continued)

Financial liabilities and equity instruments (Continued)

Derivative financial instruments and hedging activities

FRS 39: 43, 47

The Group enters into derivative financial instruments to manage its exposure to interest rate and foreign exchange rate risk, including foreign exchange forward contracts and interest rate swaps.

FRS 39: 71

Derivatives are initially recognised at their fair values at the date the derivative contract is entered into and are subsequently re-measured to their fair values at the end of each financial year. The method of recognising the resulting gain or loss depends on whether the derivative is designated and effective as a hedging instrument, and if so, the nature of the item being hedged. The Group has not designated any of its derivatives as hedging instruments in the current or previous financial year.

FRS 39: 55

Fair value changes on derivatives that are not designated or do not qualify for hedge accounting are recognised in profit or loss when the changes arise.

Commentary

Where applicable, please consider the following illustrative accounting policies:

Redeemable preference shares

FRS 32: 18(a), 36

Preference shares which are mandatorily redeemable on a specific date are classified as financial liabilities. The dividends on these preference shares are recognised as finance expenses.

Convertible loan notes

FRS 32: 15, 28, 29, 32

Convertible loan notes are regarded as compound instruments, consisting of a liability component and an equity component. The component parts of compound instruments are classified separately as financial liabilities and equity in accordance with the substance of the contractual arrangement. At the date of issue, the fair value of the liability component is estimated using the prevailing market interest rate for a similar non-convertible instrument. This amount is recorded as a liability, on an amortised cost basis until extinguished upon conversion or at the instruments maturity date. The equity component is determined by deducting the amount of the liability component from the fair value of the compound instrument as a whole. This is recognised and included in equity, net of income tax effects, and is not subsequently re-measured.

Embedded derivatives

FRS 39: 11

Derivatives embedded in other financial instruments or other host contracts are treated as separate derivatives when their risks and characteristics are not closely related to those of the host contracts and the host contracts are not measured at fair value where changes in fair value are recognised in profit or loss.

Offsetting financial instruments

FRS 32: 42

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.17 Financial instruments (Continued)

Commentary (Continued)

Note – The terms and conditions of instruments such as preference shares and convertible debt must be critically evaluated following the criteria in FRS 32 Financial Instruments: Presentation to determine their classification as financial liabilities or equity instruments and to identify any embedded derivatives. For example, a conversion option may be required to be accounted as a derivative instead of an equity component.

2.18 Inventories

FRS 2: 9, 10, 36(a) Inventories are stated at the lower of cost and net realisable value. Costs comprise direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Cost is calculated using the weighted average method. Net realisable value represents the estimated selling price less all estimated costs of completion and costs to be incurred in marketing, selling and distribution. FRS 2: 6

2.19 Construction contracts

FRS 11: 22, 39(b), 39(c) Where the outcome of a construction contract can be estimated reliably, revenue and costs are recognised by reference to the stage of completion of the contract activity at the end of the financial year (percentage-of-completion method), except where this would not be representative of the stage of completion. Variations in contract work, claims and incentive payments are included to the extent that they have been agreed with the customer. The Group measures stage of completion based on the proportion of contract costs incurred to date compared to expected total contract costs.

FRS 11: 32 Where the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred that are likely to be recoverable. Contract costs are recognised as expenses in the period in which they are incurred. FRS 11: 36 When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

FRS 11: 43 At the end of the financial year, the aggregated costs incurred plus recognised profit (less recognised loss) on each contract is compared against the progress billings. Where costs incurred plus the recognised profits (less recognised losses) exceed progress billings, the balance is presented on the face of the statement of financial position as “Amounts due from contract customers”. FRS 11: 44 Where progress billings exceed costs incurred plus recognised profits (less recognised losses), the balance is presented as “Amounts due to contract customers”.

Progress billings not yet paid by customers and retentions are included within “Trade and other receivables”. Advances received are included within “Trade and other payables”.

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.19 Construction contracts (Continued)

Commentary

Stage of completion

FRS 11: 9, 30

The stage of completion of a contract can also be measured using various different methods other than proportion of contract costs to date over expected total contract costs. Other possible methods include surveys of work performed or completion of a physical proportion of contract work. An entity should choose the method that most reliably measures the work performed.

Where applicable, please consider the following illustrative disclosures:

Development properties

FRS 2: 6(a), (b)
FRS 2: 9

Development properties are held or developed for sale in the ordinary course of business, rather than to be held for the Group's own use, rental or capital appreciation. Development properties are held as inventories and are measured at the lower of cost and net realisable value.

FRS 2: 23

The costs of the development properties include:

(a) Freehold and leasehold rights for land;
(b) amounts paid to contractors for construction; and
(c) borrowing costs, planning and design costs, costs of site preparation, professional fees for legal services, property transfer taxes, construction overheads and other related costs.

Non-refundable commissions paid to sales or marketing agents on the sale of real estate units are expensed when paid.

FRS 2: 6, 36(a)

Net realisable value is the estimated selling price in the ordinary course of the business, based on market prices at the end of the reporting period and discounted for the time value of money if material, less the estimated costs of completion and the estimated costs necessary to make the sale.

The costs of inventory recognised in profit or loss on disposal is determined with reference to the specific costs incurred on the property sold and an allocation of any non-specific costs based on the relative size of the property sold.

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.19 Construction contracts (Continued)

Commentary

Where applicable, please consider the following illustrative disclosure:

Sale of property under development

FRS 18: 14

Where property is under development and agreement has been reached to sell such property when construction is complete, the directors consider whether the contract comprises:

(a) a contract to construct a property; or
(b) a contract for the sale of a completed property.

INT FRS 115: 13

When a contract is judged to be for the construction of a property, revenue is recognised using the percentage of completion method as construction progresses.

INT FRS 115: 17

Where the contract is judged to be for the sale of completed property, revenue is recognised when the significant risks and rewards of ownership of the real estate have been transferred to the buyer. If, however, the legal terms of the contract are such that the construction represents continuous transfer of work-in-progress to the purchaser, the percentage of completion method of revenue recognition method is applied and revenue is recognised as work progresses. In such situations, the percentage of work completed is measured based on the costs incurred up until the end of the reporting period as a proportion of total costs expected to be incurred.

2.20 Cash and bank balances

FRS 7: 46
FRS 7:8

Cash and bank balances in the statement of financial position comprise cash on hand, demand deposits and other short-term highly liquid investments which are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value. For the purposes of the statement of cash flows, cash and cash equivalents also includes bank overdrafts and excludes any pledged deposits. In the statement of financial position, bank overdrafts are presented within borrowings under current liabilities.

2.21 Non-current assets (or disposal groups) held for sale and discontinued operations

FRS 105: 6
FRS 105: 7
FRS 105: 8

Non-current assets (or disposal groups) are classified as held-for-sale if their carrying amount will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

FRS 105: 15, 25
FRS 105: 20
FRS 150: 21, 22

Non-current assets (and disposal groups) classified as held-for-sale are measured at the lower of the asset's previous carrying amount and fair value less costs to sell. The assets are not depreciated or amortised while classified as held-for-sale. Any impairment loss on initial classification and subsequent measurement is recognised as an expense. Any subsequent increase in fair value less costs to sell (not exceeding the accumulated impairment loss that has been previously recognised) is recognised in profit or loss.

FRS 105: 32

A discontinued operation is a component of an entity that either has been disposed of, or is classified as held for sale, and

(a) represents a separate major line of business or geographical area of operations;
(b) is part of a single co-ordinated plan to dispose of a separate major line or geographical area of operations; or
(c) is a subsidiary acquired exclusively with a view to resale.

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.22 Leases

Finance leases

FRS 17: 4

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the leased assets to the lessee. All other leases are classified as operating leases.

FRS 17: 20
FRS 17: 25

Assets held under finance leases are capitalised as property, plant and equipment of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation. Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged to profit or loss, unless they are directly attributable to the acquisition, construction of production of qualifying assets, in which case they are capitalised in accordance with the Group's general policy on borrowing costs (see above).

Operating Leases

FRS 17: 33
INT FRS 15: 5

Rentals payable under operating leases (net of any incentives received from lessors) are charged to profit or loss on a straight-line basis over the term of the relevant lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

Commentary

Where the Group is a lessor, please include the following accounting policy under Leases:

Lessor

FRS 17: 36, 39

Amounts due from lessees under finance leases are recorded as receivables at the amount of the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

FRS 17: 50, 52

Rental income from operating leases (net of any incentives given to lessees) is recognised on a straight-line basis over the term of the relevant lease unless another systematic basis is more representative of the time pattern in which user benefit derived from the leased asset is diminished. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

Land use rights[1]

FRS 38: 74
FRS 38: 97

Land use rights are initially measured at cost. Following initial recognition, land use rights are measured at cost less accumulated amortisation and accumulated impairment losses. The land use rights are amortised over the lease term of 25 years.

[1] It is assumed that the lease does not transfer substantially all the risks and rewards incidental to ownership of land. Therefore, the lease is an operating lease and the payments made on acquiring the land-use right represent prepaid lease payments.

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.23 Provisions

FRS 37: 14

Provisions are recognised when the Group has a present legal or constructive obligation as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

FRS 37: 42
FRS 37: 45

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the financial year, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

FRS 37: 53

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

FRS 37: 59

Changes in the estimated timing or amount of the expenditure or discount rate are recognised in profit or loss when the changes arise.

2.24 Contingencies

FRS 37: 10

A contingent liability is:

(a) a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group; or

(b) a present obligation that arises from past events but is not recognised because:

  (i) it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or

  (ii) the amount of the obligation cannot be measured with sufficient reliability.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group.

FRS 37: 27, 31
FRS 103: 23

Contingencies are not recognised on the statement of financial position of the Group, except for contingent liabilities assumed in a business combination that are present obligations and for which the fair value can be reliably determined.

2.25 Government grants

FRS 20: 39(a)
FRS 20: 7
FRS 20: 23, 24
FRS 20: 26

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. Where the grant relates to an asset, the fair value is recognised as deferred capital grant on the statement of financial position and is amortised to profit or loss over the expected useful life of the relevant asset by equal annual instalment.

FRS 1: 112, 117

2. Summary of significant accounting policies (Continued)

2.26 Segment reporting

FRS 108: 5

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the group of executive directors and the chief executive officer who make strategic decisions.

Commentary

Where there are share-based payments, the following illustrative accounting policy can be considered:

FRS 102: 10, 16, 19,20

Share-based payments

The Group issues equity-settled and cash-settled share-based payments to certain employees.

Equity-settled share-based payments are measured at fair value of the equity instruments (excluding the effect of non market-based vesting conditions) at the date of grant. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period with a corresponding credit to the share-based payment reserve, based on the Group's estimate of the number of equity instruments that will eventually vest and adjusted for the effect of non market-based vesting conditions. At the end of each financial year, the Group revises the estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss over the remaining vesting period with a corresponding adjustment to the share-based payment reserve.

FRS 102: 47(a)

Fair value is measured using the Black-Scholes pricing model. The expected life used in the model has been adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions and behavioural considerations.

FRS 102: 30

For cash-settled share-based payments, a liability and a corresponding expense equal to the portion of the goods or services received is recognised at the current fair value determined at the end of each financial year, with movements recognised in profit or loss.

Note – In the case of share options, when the options are exercised the proceeds received are credited to share capital when the new shares are issued. An entity may also choose to transfer the balance previously recorded in the share-based payment reserve to share capital, to retained earnings, or alternatively to leave the balance as a separate reserve.

FRS 1: 122, 125

3. Critical accounting judgements and key sources of estimation uncertainty

In the application of the Group's accounting policies, which are described in Note 2, management made judgements, estimates and assumptions about the carrying amounts of assets and liabilities that were not readily apparent from other sources. The estimates and associated assumptions were based on historical experience and other factors that were considered to be reasonable under the circumstances. Actual results may differ from these estimates.

These estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

FRS 1: 123

3.1 Critical judgements made in applying the entity's accounting policies

The following are the critical judgements, apart from those involving estimations (see below) that management has made in the process of applying the Group's accounting policies and which have a significant effect on the amounts recognised in the financial statements.

Impairment of available-for-sale equity instrument

At the end of each financial year, an assessment is made on whether there is objective evidence that an available-for-sale equity instrument is impaired. A significant or prolonged decline in the fair value of the security below its cost is considered in determining whether the asset is impaired. Judgement is used in determining what a significant or prolonged decline is. As a Group policy, available-for-sale investments in equity securities are assessed for impairment when the market value as at the end of the financial year is ___ or more below cost, or the market value remained below cost for the previous 12 months or longer.

Commentary

Illustrative example disclosures of other judgements made in applying accounting policies:

Determination of functional currency

The Group measures foreign currency transactions in the respective functional currencies of the Company and its subsidiaries. In determining the functional currencies of the respective entities in the Group, judgement is required to determine the currency that mainly influences sales prices of goods and services and of the country whose competitive forces and regulations mainly determines the sales prices of its goods and services. The functional currencies of the entities in the Group are determined based on the local management's assessment of the economic environment in which the entities operate and the respective entities' process of determining sales prices.

Company Level

Consolidation of subsidiary

The Company holds a 49% equity interest in [subsidiary's name]. However, the Company has majority representation on the entity's board of directors and is required to approve all major operational decisions. The operations, once they commence, will be solely used by the Company. Based on these facts and circumstances, management concluded that the Company controls this entity and therefore, consolidates the entity in its financial statements.

FRS 1: 122, 125

3. Critical accounting judgements and key sources of estimation uncertainty (Continued)

FRS 1: 123

3.1 Critical judgements made in applying the entity's accounting policies (Continued)

Commentary

Examples of other areas which may be subject to critical judgements to be considered for disclosure include:

- Revenue recognition e.g. with right to return goods, assessment of whether significant risks and rewards of ownership have been transferred to the buyer
- Recognition of deferred tax assets e.g. interpretation of tax rules as to whether tax losses or tax credits will be available to be offset against future taxable profits
- Classification of investments in as associates, joint ventures or subsidiaries based on significant influence, joint control or control
- Determination of lease classification as an operating lease or a finance lease

Where no critical judgements are made, please refer to the following illustrative disclosure for guidance:

Management is of the opinion that there are no critical judgements (other than those involving estimates) that have a significant effect on the amounts recognised in the financial statements.

FRS 1: 125

3.2 Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the financial year, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

Allowance for trade and other receivables

The provision policy for doubtful debts of the Group is based on the ageing analysis and management's ongoing evaluation of the recoverability of the outstanding receivables. A considerable amount of judgement is required in assessing the ultimate realisation of these receivables, as discussed in Note 23, including the assessment of the creditworthiness and the past collection history of each customer. If the financial conditions of these customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required. The carrying amounts of the Group's and the Company's trade and other receivables as at 31 December 2013 were $_______(2012: $_______) and $________(2012: $________) respectively.

Depreciation of property, plant and equipment

The Group depreciates the property, plant and equipment, using the straight-line method, over their estimated useful lives after taking into account of their estimated residual values. The estimated useful life reflects management's estimate of the period that the Group intends to derive future economic benefits from the use of the Group's property, plant and equipment. The residual value reflects management's estimated amount that the Group would currently obtain from the disposal of the asset, after deducting the estimated costs of disposal, as if the asset were already of the age and in the condition expected at the end of its useful life. Changes in the expected level of usage and technological developments could affect the economics, useful lives and the residual values of these assets which could then consequentially impact future depreciation charges. The carrying amounts of the Group's and the Company's property, plant and equipment at 31 December 2013 were $_______ (2012: $________) and $_________ (2012: $_________) respectively (Note 12).

FRS 1: 122, 125

3. Critical accounting judgements and key sources of estimation uncertainty (Continued)

FRS 1: 125

3.2 Key sources of estimation uncertainty (Continued)

Inventory valuation method

Inventory is valued at the lower of actual cost and net realisable value. Cost is determined primarily using the weighted average method. Market price is generally the merchandise's selling price quoted from the market of similar items. Management reviews the Group's inventory levels in order to identify slow-moving and obsolete merchandise and identifies items of inventory which have a market price that is lower than its carrying amount. Management then estimates the amount of inventory loss as an allowance on inventory. Changes in demand levels, technological developments and pricing competition could affect the saleability and values of the inventory which could then consequentially impact the Group's and Company's results, cash flows and financial position. The carrying amount of the Group's inventories was $ _______ (2012: $_______) and the allowance on inventory was $________ (2012: $_________) (Note 22).

Impairment of goodwill

Determining whether goodwill is impaired requires an estimation of the value in use of the cash-generating units (CGU) to which goodwill has been allocated. The value-in-use calculation requires the entity to estimate the future cash flows expected to arise from the CGU and a suitable discount rate in order to calculate present value. The carrying amount of goodwill as at 31 December 2013 was $________ (2012: $________) and during the year an impairment loss of $________ was recognised. Further information is disclosed in Note 14.

Warranties

Provision for warranties is based on current volumes of products sold and which are still under warranty, historical product failure rates for the preceding 3 to 5 years as well as estimates and assumptions on future product failure rates and an estimate of the costs to remedy the various qualitative issues that might occur. Changes in claim rates and differences between actual and expected warranty costs could impact warranty obligation estimates which could consequentially impact the Group's results and financial position. The carrying amount of the provision for warranties as at 31 December 2013 was $_______ (2012: $____) (Note 31).

Provision for income taxes

The Group has exposure to income taxes in several jurisdictions of which a portion of these taxes arose from certain transactions and computations for which ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities of expected tax issues based on their best estimates of the likely taxes due. Where the final tax outcome of these matters is different from the amounts that were initially recognised, such differences will impact the income tax and deferred tax positions in the period in which such determination is made. The carrying amounts of the Group's and Company's current tax payable as at 31 December 2013 was $______ (2012: $_______) and $_______ (2012: $______) respectively.

Impairment of investments in subsidiaries

At the end of each financial year, an assessment is made on whether there is objective evidence that the investments in subsidiaries are impaired. The management's assessment is based on the estimation of the value-in-use of the cash-generating unit ("CGU") by forecasting the expected future cash flows for a period up to 5 years, using a suitable discount rate in order to calculate the present value of those cash flows. The Company's carrying amount of investments in subsidiaries as at 31 December 2013 was _________ (2012:___________) (Note 16).

FRS 1: 122, 125

3. Critical accounting judgements and key sources of estimation uncertainty (Continued)

FRS 1: 125

3.2 Key sources of estimation uncertainty (Continued)

Fair value measurement

A number of assets and liabilities included in the Group's financial statements require measurement at, and/or disclosure of, fair value.

The fair value measurement of the Group's financial and non-financial assets and liabilities utilises market observable inputs and data as far as possible. Inputs used in determining fair value measurements are categorised into different levels based on how observable the inputs used in the valuation technique utilised are (the 'fair value hierarchy'):

- *Level 1:* Quoted prices in active markets for identical items (unadjusted)
- *Level 2:* Observable direct or indirect inputs other than Level 1 inputs
- *Level 3:* Unobservable inputs (i.e. not derived from market data).

The classification of an item into the above levels is based on the lowest level of the inputs used that has a significant effect on the fair value measurement of the item. Transfers of items between levels are recognised in the period they occur

[INSERT DETAILS OF ANY SPECIFIC PROCESS, COMMITTEES, AND SIMILAR IN RELATION TO FAIR VALUE MEASUREMENT THAT MAY EXIST FOR THE REPORTING ENTITY– E.G. VALUATION COMMITTEES, REPORTING TO AUDIT COMMITTEES ETC. Alternatively, this can be covered in the respective notes for example as illustrated in Note 12 guidance commentary for valuations of revalued land and buildings.]

The Group measures a number of items at fair value on a recurring or non-recurring basis:

- Revalued land and buildings - Property, Plant and Equipment (Note 12)
- Investment property (Note 13)
- Financial instruments (Note 43)
- Assets and liabilities classified as held for sale (Note 9)

For more detailed information in relation to the fair value measurement of the items above including the carrying amounts and the estimation uncertainty involved, please refer to the applicable notes.

FRS 1: 122, 125

3. Critical accounting judgements and key sources of estimation uncertainty (Continued)

FRS 1: 125

3.2 Key sources of estimation uncertainty (Continued)

Commentary

Examples of other areas which may be subject to significant estimation uncertainty to be considered for disclosure include:

- Impairment of any non-financial assets
- Measurement of the stage of completion in construction contracts and other long term contracts
- Fair value measurement, except when an item is measured at fair value based on a quoted price in an active market, e.g. investment property, unquoted financial instruments, contingent consideration for a business combination
- Recognition of development costs as intangible assets
- Assessment of the need for and measurement of provisions e.g. for legal proceedings, for restoration costs etc.
- Share based payments

The sensitivity of carrying amounts to the methods, assumptions and estimates underlying their calculation them should be disclosed where it is necessary to help users of financial statements understand difficult, subjective or complex judgements made by management concerning the future and other key sources of estimation uncertainty.

Where there are no key sources of estimation uncertainty, please refer to the following illustrative disclosures for guidance:

Management is of the opinion that there are no key sources of estimation uncertainty at the end of the financial year that have a significant effect on the amounts of assets and liabilities within the next financial year.

Commentary

SGX 1207: 6(a) If there are no audit or non-audit fees paid, the annual report should include an appropriate negative statement.

FRS 1: 104 This note includes disclosures on the nature of expenses for a company presenting its expenses by function in the statement of comprehensive income, for example, staff costs, depreciation and amortisation. Further examples of items by nature that should be disclosed, where relevant and material, include advertising expenses and transportation expenses.

FRS 1: 97, 98 The nature and amount of any individually material items of income or expense, being those of such size, nature or incidence that their disclosure is relevant to explain the performance of the entity for the period, must be disclosed. For example:

(a) write-downs of inventories or property, plant and equipment and reversals of write-downs
(b) restructuring provisions and their reversals
(c) disposals of property, plant and equipment
(d) disposals of investments
(e) litigation settlements
(f) other reversals of provisions
(g) minimum lease payments
(h) contingent rents and sub-lease payments.

FRS 12: 79

Others		
Total tax expense		

9. Discontinued operation and disposal group classified as held-for-sale

FRS 105: 41(a), (b), (d)

On 25 October 2013, management and shareholders resolved to dispose of one of the Group's subsidiaries, XXX Thailand Co., Ltd., whose principal activities were those of manufacturing and sale of LED screens. The assets and liabilities related to XXX Thailand Co., Ltd. are classified as a disposal group held-for-sale on the statement of financial position, and the results from XXX Thailand Co., Ltd. are presented separately on the consolidated statement of comprehensive income as "Discontinued operation". The Group ceased the subsidiary's operations on 7 December 2013. The operations comprise the Group's plasma screens business segment.

Negotiations with several interested parties have subsequently taken place and the transactions are expected to be completed within twelve months.

The proceeds of the disposal are expected to exceed the net carrying amount of the relevant assets and liabilities and, accordingly, no impairment loss has been recognised on the classification of these operations as held-for-sale.

FRS 105: 33(b)

The results of the discontinued operation from 1 January 2013 to 7 December 2013 are as follows:

		2013 $'000	2012 $'000
	Revenue		
	Cost of sales		
	Distribution expenses		
	General and administrative expenses		
	Finance costs		
	Profit/(Loss) before tax from discontinued operation		
FRS 12: 81(h)(ii)	Income tax expense		
FRS 105: 33(b)(iii)	Profit/(Loss) after tax from discontinued operation		

Commentary

Where fair value less cost to sell is lower than the carrying amount of the disposal group, please consider the following illustrative disclosure:

The results of the re-measurement of the disposal group are as follows:

	2013 *$'000*	*2012* *$'000*
Pre-tax loss recognised on the measurement to fair value less cost to sell on disposal group		
Tax		
After-tax loss recognised on the measurement to fair value less cost to sell on disposal group		
Total profit/(loss) from discontinued operation		

9. Discontinued operation and disposal group classified as held-for-sale (Continued)

Commentary (Continued)

Where an impairment loss is recognised to write down a disposal group to fair value less costs of disposal, FRS 113 disclosure requirements must also be satisfied. Please refer to Note 12 for more detailed guidance on FRS 113 disclosure requirements. The following is an illustrative template to be adapted depending on the nature of the assets written down:

FRS 113: 93(b) *The fair value of the net assets of the disposal group are considered a level 3 non-recurring fair value measurement.*

FRS 113: 93(d) *The valuation techniques and significant unobservable inputs used in determining the fair value of assets and liabilities held for sale are as follows:*

Valuation Techniques used	***Significant unobservable inputs***
[VALUATION TECHNIQUE #1] *[DESCRIPTION]* *[PROCESS AND POLICIES]*	*[LIST SIGNIFICANT UNOBSERVABLE INPUTS USED]*
[VALUATION TECHNIQUE #2] *[DESCRIPTION]* *[PROCESS AND POLICIES]*	*[LIST SIGNIFICANT UNOBSERVABLE INPUTS USED]*

There were no changes to the valuation techniques during the period.

FRS 113: 93(i) *The fair value measurement is based on the above items' highest and best uses, which do not differ from their actual use.*

FRS 105: 33(c) The impact of the discontinued operations on the cash flows of the Group is as follows:

	2013 $'000	2012 $'000
Operating cash inflows/(outflows)		
Investing cash inflows/(outflows)		
Financing cash inflows/(outflows)		
Total cash inflows/(outflows)		

FRS 105: 38 The major classes of assets and liabilities comprising the disposal group classified as held-for-sale are as follows:

	2013 $'000	2012 $'000
Goodwill		
Property, plant and equipment		
Inventories		
Total assets classified as held-for-sale		
Trade and other payables		
Bank loans and overdrafts		
Total liabilities associated with assets classified a held-for-sale		
Net assets of disposal group classified as held-for-sale		

FRS 1:90

FRS 12: 81(a)(b)

10. Income tax relating to components of other comprehensive income

	Group					
	2013			2012		
	Before-tax amount $'000	Tax (expense)/ benefit $'000	Net-of-tax amount $'000	Before-tax amount $'000	Tax (expense)/ benefit $'000	Net-of-tax amount $'000
Exchange differences on translation of foreign operations and disposal of subsidiaries						
Fair value gains and reclassification adjustments on available-for-sale financial assets						
Gain on revaluation of property						
Share of other comprehensive income of associates						
Other comprehensive income						

11. Earnings per share

The calculation of the basic and diluted earnings per share attributable to the ordinary equity holders of the Company is based on the following data:

		Group	
		2013	2012
	Earnings	$'000	$'000
FRS 33: 70(a)	Earnings for the purposes of basic and diluted earnings per share (profit for the year attributable to the Company)		

		2013	2012
	Number of shares		
	Number of shares		
FRS 33: 70(b)	Weighted average number of ordinary shares for the purposes of basic and diluted earnings per share		

From continuing operations:

	2013	2012
Earnings per share (cents)		
Basic and diluted		

FRS 33: 70(a) The calculation of the basic and diluted earnings per share from continuing operations attributable to the ordinary equity holders of the Company is based on the following data:

Earnings figures are calculated as follows:

Profit for the year attributable to equity holders of the Company		
Less: Profit for the year from discontinued operation		
Earnings for the purposes of basic and diluted earnings per share from continuing operations		

From discontinued operation:

FRS 33: 68 Basic and diluted earnings per share for the discontinued operation is [ ] cents per share (2012: [ ] cents per share), based on the profit for the year from the discontinued operation of $________ (2012: $_______) and the denominators detailed above for both basic and diluted earnings per share.

FRS 33: 70(c) The Group did not have any dilutive potential ordinary shares in the current or previous financial years.

11. Earnings per share (Continued)

Commentary

Diluted earnings per share

The illustrative disclosure shown is for an entity which does not have any dilutive potential ordinary shares and therefore basic and diluted earnings per share are the same. Where there are dilutive potential ordinary shares, please refer to the following illustrative disclosure:

For the calculation of diluted earnings per share, profit for the year attributable to equity holders of the Company and the weighted average number of ordinary shares are adjusted for the effects of dilutive potential ordinary shares assuming all options have been converted or exercised. The Group's potential ordinary shares comprise convertible loan notes and employee share options.

The calculation of basic and diluted earnings per share (EPS) is based on the following data:

		Continuing operations 2013	Discontinued operations 2013	Total 2013	Continuing operations 2012	Discontinued operations 2012	Total 2012
FRS 33: 70(a)	**Earnings**	**$'000**	**$'000**	**$'000**	**$'000**	**$'000**	**$'000**
	Profit for the year and earnings used in basic EPS						
	Add interest on convertible debt						
	Less tax effect of above items						
	Earnings used in diluted EPS						
FRS 33: 70(b)	**Number of shares**	**$'000**	**$'000**	**$'000**	**$'000**	**$'000**	**$'000**
	Weighted average number of shares used in basic EPS						
	Effects of:						
	Convertible debt						
	Employee share options						
	Weighted average number of shares used in diluted EPS						
	Basic EPS (cents)						
	Diluted EPS (cents)						

FRS 33: 70(c) __ million employee options (2012: __ million) have not been included in the calculation of diluted EPS because their exercise is contingent on the satisfaction of certain criteria that had not been met at 31 December. The total number of options in issue is disclosed in Note __.

Commentary (Continued)

Changes affecting earnings per share

FRS 33: 70(a)

Where there is a change in the accounting policy that has a material impact on the reported basic and diluted earnings per share, please refer to the illustrative disclosure as follows for guidance:

The impact of adopting [description of the revised accounting policy] in the current financial year on reported basic and diluted earnings per share:

To the extent that the adoption of the revised accounting policy has an impact on results disclosed above, they have a corresponding impact on the amounts reported for earnings per share as follows:

	Impact on basic earnings per share		*Impact on diluted earnings per share*	
	2013	*2012*	*2013*	*2012*
	cents	*cents*	*cents*	*cents*
Adoption of [description of revised accounting policy]				

Where the revised accounting policy does not have a material impact on the reported basic and diluted earnings per share, please refer to the following illustrative disclosure:

The change does not materially affect the reported basic and diluted earnings per share for the financial year ended 31 December 2013. (see Note 2.1).

Retrospective adjustment or disclosure for changes after the reporting date

FRS 33: 64

If the number of ordinary or potential ordinary shares outstanding increases as a result of a capitalisation, bonus issue or share split, or decreases as a result of a reverse share split, the calculation of basic and diluted earnings per share for all periods presented shall be adjusted retrospectively, including where these changes occur after the reporting date but before the financial statements are authorised.

FRS 33: 70(d)

Other ordinary share or potential ordinary share transactions than those resulting from a capitalisation, bonus issue or share split that occur after the reporting date shall be disclosed if they would have changed significantly the number of ordinary shares or potential ordinary shares outstanding at the end of the period if they had occurred before the end of the reporting period.

12. Property, plant and equipment (Continued)

FRS 16: 74(a)

The carrying amounts of property, plant and equipment of the Group which were pledged as security for banking facilities are as follows:

	2013 $'000	2012 $'000
Leasehold land		
Buildings		

FRS 17: 31(a)

Plant machinery and equipment of the Group with carrying amount of $________ (2012: $______) were acquired under finance lease arrangements (Note 32).

FRS 7: 43
FRS 16: 74(a)

During the financial year, the Group acquired property, plant and equipment for an aggregate of $_______ of which $______ was acquired under finance leases. In addition, the Group's leasehold land and buildings with a carrying amount of $_________ (2012: $________) are mortgaged to secure bank borrowings (Note 33).

FRS 23: 26(a)

Borrowing costs of $_______ (2012: $_______) which arose on the financing specifically entered into for the construction of the machinery were capitalised by the Group during the financial year.

FRS 16: 77(a) - (d)
FRS 113: 93(d)(i)
SGX 1207: 11
FRS 113: 93(b)

Leasehold land and buildings of the Group were valued as at 31 December 2013 by Messrs Henry Butcher, an independent professional valuation firm using the sales comparison approach. Sale prices of comparable land and buildings in similar locations are adjusted for differences in key attributes such as land and property size. The most significant input into the valuation model is the price per square metre of the land and buildings. The valuation conforms to International Valuation Standards and is based on the assets' highest and best use, which is in line with their actual use. The resulting fair values of land and buildings are considered level 2 recurring fair value measurements.

FRS 16: 77(e)

If the leasehold land and buildings of the Group stated at valuation were included in the financial statements at historical cost less accumulated depreciation and impairment loss, their carrying amounts would have been approximately $_________ (2012: $________) and $_________ (2012: $_________) respectively.

12. Property, plant and equipment (Continued)

Commentary

Fair value measurement

FRS 113: 93 FRS 113 *Fair Value Measurement* requires specific disclosures for items measured or disclosed at fair value, depending on:

- The level of fair value measurement, and
- Whether the fair value measurement is recurring or non-recurring.

Revalued property is an example of a recurring fair value measurement, as fair valuation is required at each reporting date (unless the carrying value does not differ materially from fair value – FRS 16.31).

In the case of ABC Singapore Limited, we have presumed that the valuation techniques result in a level 2 fair value measurement, being based on observable inputs. However, if at least one unobservable input is used in the valuation, it will be classified as level 3. For level 3 fair values, additional disclosure requirements include:

- **FRS 113: 93(e)(f)** A reconciliation between the opening and closing fair value measurement, including any unrealised fair value gains/losses
- **FRS 113: 93(d)** Significant unobservable inputs
- **FRS 113: 93(g)** A description of the valuation processes and policies in relation to the item (in addition to the description of valuation techniques required for both level 2 and 3)
- **FRS 113: 93(h)(i)** Narrative disclosure of the sensitivity of changes in significant unobservable inputs to fair value i.e. describe whether increases or decreases in significant unobservable inputs would cause an increase or decrease in fair value

The following illustrative disclosure can be considered for level 3 fair values of revalued property, plant and equipment:

A reconciliation of the opening and closing fair value balance is provided below.

	2013 ***$'000***
Opening balance (level 3 recurring fair value)	
Purchases	
Disposals	
Reclassifications	
Gains (Loss): included in 'other comprehensive income'	
- Gain on revaluation of property	
Gains (Loss): included in 'other expenses/ income'	
- Unrealised exchange differences	
Closing balance (level 3 recurring fair value)	

The valuation techniques and significant unobservable inputs used in determining the fair value measurement of land and buildings, as well as the inter-relationship between key unobservable inputs and fair value, are set out in the table below. There were no changes to the valuation techniques during the period.

12. Property, plant and equipment (Continued)

Commentary (Continued)

Fair value measurement (Continued)

Valuation techniques Used	***Significant unobservable inputs***	***Inter-relationship between key unobservable inputs and fair value***
[VALUATION TECHNIQUE #1] *[DESCRIPTION]* *[PROCESSES AND POLICIES]*	*[LIST SIGNIFICANT UNOBSERVABLE INPUTS USED]*	*[DESCRIBE WHETHER OR DECREASE IN SIGNIFICANT UNOBSERVABLE INPUTS WOULD CAUSE AN INCREASE OR DECREASE IN FAIR VALUE]*
Land and buildings *Fair value is determined by applying the income approach based on the estimated rental value of the property. Discount rates, terminal yields, expected vacancy rates and rental growth rates are estimated by an external valuer or management based on comparable transactions and industry data.*	*- Discount rate (X% to X%; weighted average X%)* *- Terminal yield (X% to X%; weighted average X%)* *- Expected vacancy rate (X% to X%; weighted average X%)*	*The higher the discount rate, terminal yield and expected vacancy rate the lower the fair value.*
	- Rental growth rate (X% to X%; weighted average X%)	*The higher the rental growth rate, the higher the fair value.*

The group finance team is responsible for arranging valuations to be performed by external valuers. That team reports to and arranges a discussion with the Group's CFO and AC on a quarterly basis on valuation matters, including valuation processes, valuation results as well as an analysis of changes in Level 2 and 3 fair values and explanations for the reasons for such changes.

Fair value measurement – highest and best use

FRS 113: 93(i)

For all fair value measurements of non-financial assets, if the highest and best use differs from the actual use of the asset, disclosure is required of that fact and the reason why the asset is being used in a manner different from its highest and best use.

Impairment

Where applicable, details are to be disclosed on any impairment losses recognised, for example:

FRS 36: 126(a)
130(a)(b)(c)(e)(g)

During the year, the Group carried out a review of the recoverable amount of its trading segment plant and equipment due to a deterioration in operating results following the loss of a key customer. The review led to the recognition of an impairment loss of $______ that has been recognised in profit or loss, and included in the line item [depreciation and amortisation expense/cost of sales]. The recoverable amount of the relevant assets has been determined on the basis of their value in use. The discount rate used in measuring value in use was ___. The discount rate used when the recoverable amount of these assets was previously estimated in [   ] was [%].

12. Property, plant and equipment (Continued)

Commentary

Listing rules

SGX 1207: 11(a) SGX requires listed entities to disclose, in respect of land and buildings, a breakdown in the value in terms of freehold and leasehold in the annual report. Where properties have been revalued, the portion of the aggregate value of land and buildings that is based on valuation as well as the valuation date shall be stated.

Where the aggregate value for all properties for development or sale held by the Group represents more than 15% of the consolidated pre-tax operating profit, the issuer must disclose the following information as a note to the financial statements:

(a) a brief description and location of the property;
(b) if in the course of construction, the stage of completion as at the date of the financial statements and the expected completion date;
(c) the existing use;
(d) the site and gross floor area of the property; and
(e) the percentage interest in the property

Provided that if, in the opinion of the directors, the number of such properties is such that compliance with this requirement would result in particulars of excessive length being given, compliance is required only for properties, which in the opinion of the directors, are material.

13. Investment properties

		Group	
		2013	2012
		$'000	$'000
	At fair value		
	At 1 January		
FRS 40: 76(a)	Additions through subsequent expenditure		
FRS 40: 76(a)	Other acquisitions		
FRS 40: 76(d)	Net fair value gain recognised in profit or loss (Note 5)		
FRS 40: 76(e)	Exchange differences		
FRS 40: 76(f)	Transfers		
	At 31 December		

FRS 40: 75(e)
FRS 113: 93(d)(i)
SGX 1207: 11

The Group's investment properties were valued as at 31 December 2013 (2012: 31 December 2012) by Messrs Henry Butcher, an independent professional valuation firm with recent experience in the location and category of the investment properties held by the Group. The valuations were arrived at using the sales comparison approach whereby sale prices of comparable properties in similar locations are adjusted for differences in key attributes such as property size. The most significant input into the valuation model is the price per square metre of the properties. The valuation conforms to International Valuation Standards and is based on the assets' highest and best use, which is in line with their actual use. The resulting fair values of investment properties are considered level 2 recurring fair value measurements.

SGX 1207: 11(b)(iii) All the Group's investment properties are held under freehold interests.

13. Investment properties (Continued)

The following amounts are recognised in profit or loss:

		Group	
		2013	2012
		$'000	$'000
FRS 40: 75(f)(i)	Rental income from investment properties (Note 5)		
FRS 40: 65(f)(ii)	Direct operating expenses (including repairs and maintenance) arising from rental-generating investment properties		
	Direct operating expenses (including repairs and maintenance) arising from non-rental-generating investment properties		

SGX 1207: 11(b) Details of the Group's investment properties as at 31 December 2013 are set out below:

Description	Location/ existing use	Tenure/ Unexpired term

Commentary

SGX 1207: 11(b) **Listing rules**

For listed entities, where the aggregate value for all investment properties held by the Group represents more than 15% of the consolidated pre-tax operating profit, the issuer must disclose the following information as a note to the financial statements:

(a) a brief description and location of the property;
(b) the existing use; and
(c) whether the property is leasehold or freehold. If it is leasehold, state the unexpired term of the lease.

Fair value disclosures under FRS 40

FRS 40: 79(a)-(d) For entities that have chosen to adopt the Cost Model under FRS 40:34, the disclosure and presentation is similar to Note 12 *Properties, Plant and Equipment*. In addition, the user shall disclose the fair value of investment property unless the entity cannot determine the fair value of the investment property reliably, following which it shall disclose:

FRS 40: 79(c)
(a) a description of the investment property;
(b) an explanation of why fair value cannot determined reliably; and
(c) if possible, the range of estimates within which the fair value is likely to be.

FRS 40: 75(e) If there has been no valuation performed by an independent valuer, that fact should be disclosed.

13. Investment properties (Continued)

Commentary (Continued)

Fair value measurement disclosures under FRS 113

FRS 113: 93

FRS 113 *Fair Value Measurement* requires specific disclosures for items measured or disclosed at fair value, depending on:

- The level of fair value measurement, and
- Whether the fair value measurement is recurring or non-recurring.

Investment property is an example of a recurring fair value measurement, as fair valuation is required at each reporting date.

In the case of ABC Singapore Limited, we have presumed that the valuation techniques result in a level 2 fair value measurement, being based on observable inputs. However, if at least one unobservable input is used in the valuation, it will be classified as level 3. For level 3 fair values, additional disclosure requirements include:

- FRS 113: 93(e)(f) — A reconciliation between the opening and closing fair value measurement, including any unrealised fair value gains/losses
- FRS 113: 93(d) — Significant unobservable inputs
- FRS 113: 93(g) — A description of the valuation processes and policies in relation to the item (in addition to the description of valuation techniques required for both level 2 and 3)
- FRS 113: 93(h)(i) — Narrative disclosure of the sensitivity of changes in significant unobservable inputs to fair value i.e. describe whether increases or decreases in significant unobservable inputs would cause an increase or decrease in fair value

Refer to the illustrative disclosures for level 3 fair values of revalued property, plant and equipment in Note 12 for guidance.

Fair value measurement – highest and best use

FRS 113: 93(i)

For all fair value measurements of non-financial assets, if the highest and best use differs from the actual use of the asset, disclosure is required of that fact and the reason why the asset is being used in a manner different from its highest and best use.

General description of the lessor's agreements

FRS 17: 56(c)

Entities may disclose a general description of the lessor's leasing agreements in this note or in the note to Operating Lease Commitments (Note 36). For example: *The Group and Company lease out commercial space to non-related parties under non-cancellable operating leases. The lessees are required to pay either absolute fixed annual increase to the lease payments or contingent rents computed based on their sales achieved during the lease period.*

Restrictions

FRS 40: 75(g)

Where applicable, the Group shall disclose existence and amounts of restrictions on the realisability of investment property or the remittance of income and proceeds of disposal.

14. Goodwill

		Group	
		2013	2012
		$'000	$'000
	Cost:		
	At 1 January		
FRS 38: 118(e)(i)	Acquisition of subsidiaries (Note 16)		
FRS 38: 118(e)(ii)	Disposal of subsidiaries (Note 16)		
	Attributable to disposal group held for sale (Note 9)		
FRS 38: 118(e)(vii)	Exchange differences		
	At 31 December		
	Impairment:		
	At 1 January		
FRS 38: 118(e)(v)	Impairment loss recognised in the year *		
	At 31 December		
	Carrying amount:		
	At 31 December		

* This is included in "Other expenses" in the Group's profit or loss for the financial year then ended.

FRS 36: 134(a)

Goodwill acquired in a business combination is allocated to the cash-generating units (CGU) that are expected to benefit from that business combination. Before recognition of impairment losses, the carrying amount of goodwill had been allocated to the following segments:

		Group	
	Manufacturing	Distribution	Trading
2013	$'000	$'000	$'000
Thailand			
Singapore			
China			
United States			
Others			
2012			
Thailand			
Singapore			
China			
United States			
Others			

FRS 36: 134(c)(d)

The recoverable amounts of the CGUs are determined from value-in-use calculations based on cash flow forecasts derived from the most recent financial budgets approved by management for the next five years. The key assumptions for these value-in-use calculations are those regarding the discount rates, growth rates and gross margins.

FRS 36: 134(d) (i)(iv)(v)

14. Goodwill (Continued)

Key assumptions used for value-in-use calculations:

	Manufacturing					Distribution					Trading

	(%)	(%)	(%)	(%)	(%)	(%)	(%)	(%)	(%)	(%)	(%)	(%)	(%)	(%)	(%)
2013															
Gross margin (1)															
Growth rate (2)															
Discount rate (3)															
2012															
Gross margin (1)															
Growth rate (2)															
Discount rate (3)															

(1) Budgeted gross margin.
(2) Weighted average growth rate used to extrapolate cash flows beyond the budget period.
(3) Pre-tax discount rate applied to the pre-tax cash flow projections.

Management estimates discount rates using pre-tax rates that reflect current market assessments of the time value of money and the risks specific to the CGUs. The growth rates beyond the first five years are based on country and industry growth forecasts. Changes in gross margins are derived from expected changes in selling prices and direct costs based on past practices and expectations of future changes in the market conditions.

14. Goodwill (Continued)

The Group tests the CGUs for impairment annually, or more frequently when there is an indication that the unit may be impaired.

FRS 36: 134(f)

The impairment tests carried out as at 31 December 2013 indicated that the recoverable amount for the CGUs:

- Trading – Singapore exceeds its carrying amount by $________ (2012: $_____); and
- Distribution – Singapore exceeds its carrying amount by $________ (2012: $_____).

If any of the following changes were made to the above key assumptions, the carrying amount and recoverable amount for these CGUs would be equal.

	Trading – Singapore **2013** **%**	**Distribution - Singapore** **2013** **%**
Gross margin	reduction from __% to __%	reduction from __% to __%
Discount rate	increase from __% to __%	increase from __% to __%
Growth rate beyond year 5:	reduction from __% to __%	reduction from __% to __%

FRS 36: 130(a)(b)(d)(e)

During the year, one of the operating units in the trading segment in the United States lost one of its key customers. This had an adverse effect on the projected value in use of the operation concerned. The decrease in recoverable amount to $__________ resulted in an impairment to goodwill of $______. The Group has also reassessed the useful lives of its property, plant and equipment and determined that no change in the useful lives was required.

Commentary

FRS 36: 130(a)

For each impairment loss recognised or reversed during the period the events and circumstances that led to the recognition or reversal of the impairment loss must be disclosed.

FRS 36: 134(f)

If a reasonably possible change in a key assumption on which management has based its determination of a CGU's recoverable amount would cause the carrying amount of a CGU to exceed its recoverable amount, the followings should be disclosed for each such CGU:

(i) the amount by which the recoverable amount exceeds the carrying amount
(ii) the value assigned to the key assumptions
(iii) the amount by which the value assigned to the key assumptions must change, after incorporating any consequential effects of that change on the other variables used to measure the recoverable amount, in order for the recoverable amount to be equal to its carrying amount

If in the view of management, there are no such reasonably possible changes to key assumptions, disclosure of that fact should be considered in order to address the disclosure requirements.

As disclosed in Note 2.1 the Group has early adopted Amendments to FRS 36 *Recoverable Amount Disclosures for Non-Financial Assets*. This has resulted in the need to only include disclosure of the recoverable amount for the CGU in which an impairment loss has been recorded or reversed during the financial year.

Had the amendments to FRS 36 not been early adopted, the Group would be required to disclose in the financial statements for the year ended 31 December 2013 the recoverable amount for each CGU that includes a significant amount of goodwill compared to the entity's overall carrying amount of goodwill (or other intangible assets with an indefinite useful life).

15. Other intangible assets

	Balance at 31 December		

* This is included in the "Other expenses" in the Company's profit or loss for the financial year then ended.

FRS 36: 130(a)(b)(c)(e)(g)

During the year, the Group carried out a review of the recoverable amount of the investment in DEF (PRC) Ltd in the China manufacturing segment due to the losses reported by this subsidiary as a result of increased raw material and component prices. The review led to the recognition of an impairment loss of $______ that has been recognised in profit or loss. The recoverable amount of the investment has been determined on the basis of its value in use. The discount rate used in measuring value in use was ___. The discount rate used when the recoverable amount of the investment was previously estimated in [ ] was [%].

FRS 36: 130(a)(b)(c)(e)(g)

A reversal of an allowance for impairment loss of $_______ (2012: $______) was recognised relating to the investment in YYY Thailand Co. Ltd in the Thailand manufacturing segment following an improvement in market conditions that resulted in an increase in the projected value in use of this investment. The recoverable amount of the investment has been determined on the basis of its value in use. The discount rate used in measuring value in use was ___. The discount rate used when the recoverable amount of the investment was previously estimated in [ ] was [%].

16. Investments in subsidiaries (Continued)

FRS 27: 43(b)
SGX 715, 716

The details of the subsidiaries are as follows:

Name of subsidiaries (Country of incorporation/ operation)	**Principal activities**	**Effective equity interest held by the Group**	
		2013	**2012**
		%	**%**

ZZZ (Philippines) Co., Ltd (1) (Philippines)	Manufacturing and sales of audio systems		
VVV (Singapore) Pte. Ltd. (Singapore)	Manufacturing and sales of speaker products		
XXX (China) Co., Ltd. (2) (PRC)	Manufacturing and sales of LED screens		
DEF (PRC) Ltd (PRC)	Manufacturing and sales of audio systems		

SGX 717, 718

(1) Audited by overseas member firms of the BDO network in the respective countries.
(2) Audited by another firm of auditors, XXX.

Commentary

SGX 717, 718

(i) Where significant subsidiaries are audited by another firm of auditors, the names of the other auditors are to be disclosed specifically, i.e. giving the full name of each such firm. A subsidiary is considered significant under the SGX-ST Listing Manual if its net tangible assets represent 20% or more of the issuer's consolidated net tangible assets, or its pre-tax profits account for 20% or more of the issuer's consolidated pre-tax profits.

(ii) Under the SGX-ST Listing Manual, an issuer may appoint different auditors for its significant subsidiaries or associates provided the Board and audit committee are satisfied it would not compromise the standard and effectiveness of the audit; or if the subsidiary or associate is listed on a stock exchange. An example of suitable disclosure in such as case would be:

SGX 716

In accordance with Rule 716 to the SGX-ST Listing Rules, the audit committee and Board have confirmed that they are satisfied the appointment of different auditors for its subsidiaries would not compromise the standard and effectiveness of the audit of the Company.

(iii) Where applicable, please include the details of significant movements in the investments of the subsidiaries during the financial year.

16. Investments in subsidiaries (Continued)

Acquisition of subsidiary

FRS 103: B64 (a)(b)(c)(d)

On 18 June 2013, the Company acquired 55% equity interest in XXX (China) Co., Ltd. Upon the acquisition, XXX (China) Co., Ltd became a subsidiary of the Group. The Company has acquired XXX China) Co., Ltd to strengthen its position in China, and to reduce costs through economies of scale.

The fair values of the identifiable assets and liabilities of XXX (China) Co., Ltd as at the date of acquisition were:

		Fair value recognised on date of acquisition
		$'000
FRS 103: B64(i)	Property, plant and equipment	
	Trade and other receivables	
	Inventories	
	Cash and cash equivalents	
	Trade and other payables	
	Provision for maintenance warranties	
	Deferred tax liability	
	Income tax payable	
	Net identifiable assets at fair value	
FRS 103: B64(o)(i)	Non-controlling interests measured at the non-controlling interests' proportionate share of XXX (China) Co., Ltd's net identifiable assets	
	Goodwill arising from acquisition	

FRS 103: B64(h)

The fair value of trade and other receivables is $________ and which includes trade receivables of $________. The gross contractual amounts of trade and other receivables are $_________ and $_________ respectively, of which $__________ and $_________ are expected to be uncollectible.

		$'000
FRS 103: B64(f)	Consideration for acquisition of 55% equity interest	
	- Cash paid	
	- 1,000,000 ordinary shares of ABC Singapore Limited issued at ____ each	
	Total consideration transferred	

16. Investments in subsidiaries (Continued)

FRS 103: B64(f)(iv) In connection with the acquisition of the 55% equity interest in XXX (China) Co., Ltd, ABC Singapore Limited issued [   ] ordinary shares with a fair value of $_____each. The fair value of these shares is the published price of the shares at the acquisition date.

The attributable cost of the issuance of the shares as consideration of $______ has been recognised directly in equity as a deduction from share capital.

FRS 103: B64(q) From the date of acquisition, XXX (China) Co., Ltd has contributed $_____ and $_____ to the revenue and profit net of tax of the Group respectively. If the combination had taken place at the beginning of the financial year, the Group's revenue and profits, net of tax would have been $_______ and $_______ respectively.

FRS 103: B64(e) Goodwill of $__________ arising from the acquisition is attributable to the distribution network in China and the expected synergies from combining the operations of the Group with those of XXX (China) Co., Ltd. It also includes the value of a customer list, which has not been recognised separately as it does not meet the criteria for recognition as an intangible asset under FRS 38.

FSR 103: B64(k) None of the goodwill is expected to be deductible for tax purposes.

FRS 103: B64(m) Transaction costs related to the acquisition of $_______ have been recognised in the "Administrative expenses" line item in the Group's profit or loss for the year ended 31 December 2013.

The effects of the acquisition of the subsidiary on cash flows are as follows:

		$'000
FRS 7: 40(a)	Total consideration for 55% equity interest acquired	
FRS 7: 43	Less: non-cash consideration	
	Consideration settled in cash	
FRS 7: 40(b)	Less: Cash and cash equivalents of subsidiary acquired	
FRS 7: 40(c)	Net cash inflow on acquisition	

Commentary

Acquisition of investment in subsidiaries

FRS 103: B64(g) **(i) Contingent consideration arrangements and indemnification assets**

Where applicable, the entity shall disclose for the above-mentioned the following:

(a) the amount recognised as of the acquisition date;
(b) a description of the arrangement and the basis for determining the amount of the payment; and
(c) an estimate of the range of outcomes (undiscounted) or, if a range cannot be estimated, that fact and the reasons why a range cannot be estimated. If the maximum amount of the payment is unlimited, the acquirer shall disclose that fact.

16. Investments in subsidiaries (Continued)

Commentary (Continued)

FRS 103: B64(g)

(i) Contingent consideration arrangements and indemnification assets (Continued)

Illustrative guidance on disclosure of contingent consideration arrangements

As part of the purchase agreement, the Company agreed to pay the former owners of [acquiree] $________ cash if the entity achieves a cumulative net profit of $________ for a period of __ months after the acquisition date.

The fair value of the contingent consideration as at the acquisition date was estimated to amount to $________ and this was based on an estimated cumulative net profit of [acquiree] ranging from $________ to $_______ for the relevant period, discounted at 5% per annum.

As at 31 December 2013, the fair value of the contingent consideration is estimated to have increased by $_______ to $_______, as the estimated cumulative net profit in [acquiree] for the relevant period has been revised to be in the region of $_______ to $________. The increase in the fair value of the contingent consideration has been recognised in the "Administrative expense" line item in the profit or loss of the Group for the financial year ended 31 December 2013.

FRS 103: 19

(ii) Measurement of non-controlling interest at the date of acquisition

In this illustration, the Group has elected to measure the non-controlling interest arising from acquisition of XXX (China) Co., Ltd at the non-controlling interest's proportionate share of the entity's identifiable net assets.

If the entity chooses to measure non-controlling interest arising in a business combination at fair value, FRS 103: B64(o)(ii) requires the entity to disclose, for each of such business combinations, the valuation techniques and key model inputs used for determining that value.

Illustrative guidance

The fair value of the [%] non-controlling interest in [acquiree] of $________ was estimated by applying the income approach that is corroborated by market approach. The fair value estimates are based on the following:

(a) assumed discount rates ranging from [%] to [%] per annum;
(b) an assumed terminal value, calculated based on the long term sustainable growth rate for the industry ranging from [%] to [%], which has been used to determine income for the future years; and
(c) assumed adjustments because of the lack of control and marketability that participates would consider when estimating the fair value of the non-controlling interest in [acquire].

FRS 103: B64(p)

(iii) Step acquisitions

Where applicable, the entity is required to disclose the following:

(a) the acquisition-date fair value of the equity interest in the acquiree held by the acquirer immediately before the acquisition date; and
(b) the amount of any gain or loss recognised as a result of remeasuring to fair value the equity interest in the acquiree held by the acquirer before the business combination and the line item in the statement of comprehensive income in which that gain or loss is recognised.

16. Investments in subsidiaries (Continued)

Commentary (Continued)

(iii) Step acquisitions (Continued)

Illustrative guidance

On [date], ABC Singapore Limited acquired an additional [%] equity interest in [acquiree], Ltd from its non-controlling interests for a cash consideration of $_______. As a result of this acquisition, [acquiree] became a wholly-owned subsidiary of [acquirer]. The carrying value of the net assets of [acquiree] as acquisition date was $_______ and the carrying value of the additional interest acquired was $_________. The difference of $_________ between the consideration and the carrying value of the additional interests acquired has been recognised as a "Premium paid on acquisition of non-controlling interests" within equity.

The following summarises the effect of the change in the Group's ownership interest in [acquiree] on the equity attributable to owners of the parent:

	$'000
Consideration paid for acquisition of non-controlling interests	
Decrease in equity attributable to non-controlling interests	
Decrease in equity attributable to owners of the parent	

FRS 103: B67(a)

(iv) Provisional fair values

If the initial acquisition accounting for a business combination has not been completed by the end of the financial year in which the acquisition occurred, the acquirer may report provisional values in its financial statements for the incomplete items. During the allowed measurement period of at most 12 most from the acquisition date, the provisional amounts recognised at the acquisition date are adjusted retrospectively to reflect new information about facts and circumstances that existed at the acquisition date and, if known, would have affected their measurement at the acquisition date. Disclosures are required to indicate that provisional accounting is being used, the reasons why, which items accounting is incomplete for and subsequently on the effect of any adjustments. For example:

As the final valuation report has not been received from the independent valuers, the fair value of the acquired intangible assets of $_____ relating to brands have been accounted for at provisional amounts.

16. Investments in subsidiaries (Continued)

Disposal of subsidiary

FRS 7: 40(a) On 30 June 2013, the Company disposed of its entire interest in ZZZ (Philippines) Co., Ltd for cash consideration of $_________.

The effects of the disposal as at the date of disposal were:

		Carrying amount **$'000**
FRS 7: 40(d)	Property, plant and equipment	
FRS 7: 40(d)	Trade and other receivables	
FRS 7: 40(d)	Inventories	
FRS 7: 40(c)	Cash and cash equivalents	
	Trade and other payables	
FRS 7: 40(d)	Provision for maintenance warranties	
FRS 7: 40(d)	Deferred tax liability	
FRS 7: 40(d)	Income tax payable	
FRS 7: 40(d)	Net identifiable assets	

The effects of disposal of subsidiary on cash flows are as follows:

		2013 **$'000**
	Net identifiable assets disposed (as above)	
	Goodwill on disposal (Note 14)	
	Reclassification of currency translation reserve on disposal	
	Gain on disposal (Note 5)	
	Cash proceeds from disposal	
FRS 7: 40(a)(b)	Cash and cash equivalents disposed	
FRS 7: 40(c)	Net cash inflow on disposal	

17. Investments in associates

		Group		Company	
		2013	2012	2013	2012
		$'000	$'000	$'000	$'000
	Equity shares, at cost				
	Exchange differences				
FRS 28: 38	Share of post-acquisition results				
FRS 28: 39	Share of other comprehensive income				
FRS 28: 38	Carrying amount				
FRS 28: 37(a)	Fair value of investment in an associate for which there is a published price quotation				

The details of the associates are as follows:

Name of associates (Country of incorporation/ operation)	Principal activities	Effective equity interest held by the Group	
		2013 %	2012 %
ZZZ (Thai) Co., Ltd. (1) (Thailand)	Manufacturing and sales of speaker products		
AAA Malaysia Sdn. Bhd. (2) (Malaysia)	Manufacturing and sales of speaker products		

(1) Audited by overseas member firms of the BDO network in the respective countries.
(2) Audited by another firm of auditors, XXX.

Commentary

SGX 717, 718 (i) Where significant associates are audited by another firm of auditors, the names of the other auditors are to be disclosed specifically. An associate is considered significant if its net tangible assets represent 20% or more of the issuer's consolidated net tangible assets, or its pre-tax profits account for 20% or more of the issuer's consolidated pre-tax profits.

FRS 28: 37(e) (ii) Where an associate's financial statements have a different reporting date from the Company's and the financials are consolidated using equity method, please refer to the following for an illustrative guide on the necessary disclosures:

The financial statements of [Name of Associates] are made up to [ ] each year. This was the financial reporting date established when the company was incorporated, and a change of reporting date is not permitted/made because [state reason]. For the purpose of applying the equity method of accounting, the financial statements of [ ] for the year ended [ ] have been used, and appropriate adjustments have been made for the effects of significant transactions between that date and 31 December 2013.

17. Investments in associates (Continued)

FRS 28: 37(b) Summarised financial information in respect of the Group's associates is set out as follows:

	Group	
	2013	2012
	$'000	$'000
Assets and liabilities:		
Total assets		
Total liabilities		
Net assets		
Group's share of associates' net assets		
Results		
Revenue		
Profit for the year		
Group's share of associates' profit for the year		
Other comprehensive income		
Group's share of associates' other comprehensive income		
FRS 28: 40(a) Share of associates' contingent liabilities incurred jointly with other investors		
FRS 28: 40(b) Contingent liabilities relating to liabilities of associates for which the Company is severally liable		

FRS 28: 37(g) The Group has not recognised losses relating to certain associates where its share of losses exceed the Group's carrying amount of its investment in those associates. The Group's cumulative share of unrecognised losses were $____________ (2012: $________) of which $________ (2012: $________) was the share of the current year's losses. The Group has no obligation in respect of those losses.

18. Investments in joint venture

FRS 31: 56 The following amounts are included in the Group's financial statements as a result of proportionate consolidation of ABC (M) Sdn Bhd:

	Group	
	2013	2012
	$'000	$'000
Current assets		
Non-current assets		
Current liabilities		
Non-current liabilities		
Income		
Expenses		
FRS 31: 54(b) Share of contingent liabilities of joint venture		
FRS 31: 55(b) Share of capital commitments of joint venture		
FRS 31: 55(a) Capital commitments on interest in joint venture		

18. Investments in joint venture (Continued)

FRS 31: 56

The details of the joint venture are as follows:

Name of joint venture (Country of incorporation/ operation)	Principal activities	Effective equity interest held by the Group	
		2013 %	2012 %
ABC (M) Sdn. Bhd. [(1)] (Malaysia)	Manufacturing and sales of audio systems		

(1) Audited by another firm of auditors, XXX.

Commentary

SGX 717, 718

Where significant joint ventures are audited by another firm of auditors, the names of the other auditors are to be disclosed specifically. Guidelines similar to those applicable for associates (see above) may be used to determine if a joint venture is significant.

19. Deferred tax

	Group		Company	
	2013 $'000	2012 $'000	2013 $'000	2012 $'000
Deferred tax liabilities				
Deferred tax assets				

The movement for the year in deferred tax position is as follows:

DV

	Group		Company	
	2013 $'000	2012 $'000	2013 $'000	2012 $'000
At 1 January

At 1 January 2013				
(Charge)/Credit to equity				
Exchange translation differences				
(Charge)/Credit to profit or loss				
At 31 December 2013				

FRS 12: 81(e)

At the end of the financial year, the aggregate amount of temporary differences associated with undistributed earnings of subsidiaries for which deferred tax liabilities have not been recognised is $________ (2012: $________). No liability has been recognised in respect of these differences because the Group is in a position to control the timing of the reversal of the temporary differences and it is probable that such differences will not reverse in the foreseeable future.

FRS 12: 81(e)

Subject to the agreement by relevant tax authorities, at the end of financial year, the Group has unutilised tax losses of $________ (2012: $________) available for offset against future profits. A deferred tax asset has been recognised in respect of $________ (2012: $________) of such losses. No deferred tax asset has been recognised in respect of the remaining $________ (2012: $________) due to the unpredictability of profit streams. These losses may be carried indefinitely subject to the conditions imposed by law.

FRS 12: 81(f)

Temporary differences arising in connection with interests in associates and jointly controlled entities are insignificant.

FRS 107: 31, 34

20. Held-to maturity investments

		Group and Company	
		2013	2012
		$'000	$'000
	Unquoted debt securities		
FRS 107: 8(b)	- At amortised cost		
FRS 107: 25	- At fair value		

The average effective interest rate of the unquoted debt securities is [%] (2012: [%]) per annum.

At 31 December 2013, the unquoted debt securities have nominal values amounting to $________ (2012: $________), with coupon rates ranging from [%] to _____% (2012: ______) per annum and maturity dates ranging from ______ to _______ (2012: ______ to ______).

There were no disposals or allowances for impairment for these unquoted debt securities.

The currency profiles of the Group's and the Company's held-to-maturity securities as at 31 December are as follows:

	Group and Company	
	2013	2012
	$'000	$'000
United States dollar		
Singapore dollar		
Thai baht		
Ringgit Malaysia		

FRS 107: 31, 34
FRS 107: 8(d)

21. Available-for-sale investments

		Group		Company	
		2013	2012	2013	2012
		$'000	$'000	$'000	$'000
	At 1 January				
	Exchange differences				
	Additions				
FRS 107: 20(a)(ii)	Fair values changes recognised in other comprehensive income				
	Impairment loss *				
	Disposals				
	At 31 December				

* This is included in the "Other expenses" line item in the profit or loss of the Group for the financial year then ended.

FRS 107: 31, 34
FRS 107: 8(d)
FRS 107: 7

21. Available-for-sale investments (Continued)

Details of the available-for-sale investments are as follows:

	Group		Company	
	2013	2012	2013	2012
	$'000	$'000	$'000	$'000
Unquoted equity securities, at cost				
Less: Impairment loss				
Carrying amount				
Quoted equity securities, at fair value				
Total				

FRS 107: 29(b) The investment in unquoted equity securities is stated at cost less impairment loss, if any, as its fair value cannot be determined reliably.

FRS 107: 31, 34
FRS 113: 93 The investments in quoted equity securities have no fixed maturity date nor coupon rate. The fair values of these securities are based on closing quoted market prices on the last market day of the financial year. The securities are listed on the Singapore Exchange Securities Trading Limited (SGX-ST).

FRS 107: 31, 34(a) The currency profiles of the Group's and the Company's available-for-sale investments as at 31 December are as follows:

	Group		Company

FRS 2: 36(h) Inventories with carrying amounts of $_______ (2012: $_______) are held as security by way of a floating charge for certain of the Group's overdrafts (Note 33).

FRS 1: 77, 78(c)

22. Inventories (Continued)

Commentary

FRS 2: 36(e)(f)(g)

The entity is required to disclose the amount of any write-down or reversal of any write-down that is recognised as a reduction in the amount of inventories recognised as expense and the circumstances or events leading to such reversals. Please refer to an illustrative disclosure below for guidance:

The Group has recognised a reversal of $________ (2012: $_______), being part of an inventory write-down made in 2012, as the inventories were sold above the carrying amounts in 2013.

FRS 1: 77, 78(b)

Add: Held for trading investments (Note 25)				
Total financial assets/ liabilities at fair value through profit or loss				

FRS 107: 6, 8(a)(e)

Foreign currency forward contracts

FRS 107: 31, 34(a)

The Company is a party to a variety of foreign currency forward contracts in the management of its exchange rate exposures arising from its foreign currency denominated business transactions. The instruments purchased are primarily denominated in the currencies of the Group's principal markets.

The following details the foreign currency forward contracts outstanding as at 31 December:

	Average exchange rate		Foreign currency		Notional amount		Fair value		Settlement date
Group	2013	2012	2013	2012	2013	2012	2013	2012	
			FC	FC	$'000	$'000	$'000	$'000	
Nature									
Sell Thai baht									
Buy Singapore dollar									

26. Derivative financial instruments (Continued)

Interest rate swaps

FRS 107: 31, 34

The Group and the Company use interest rate swaps to manage its exposure to interest rate movements on its bank borrowings by swapping a certain proportion of those borrowings from floating rates to fixed rates.

The following details the interest rate swaps outstanding as at 31 December:

	Average contracted fixed interest rate		Notional principal amount		Fair value		Settlement date
Group	2013	2012	2013	2012	2013	2012	
			$'000	$'000	$'000	$'000	
Interest rate swaps							

The interest rate swaps settle on a quarterly basis. The floating rate on the interest rate swaps is the Singapore inter-bank rate. The Group will settle the difference between the fixed and floating interest rate on a net basis.

FRS 107: 6

27. Cash and bank balances

FRS 7: 45

	Group		Company	
	2013	2012	2013	2012
	$'000	$'000	$'000	$'000
Cash balances				
Bank balances				
Short-term deposits				
Cash and bank balances				

FRS 107: 31, 34

Short-term deposits bear interest at an average rate of [%] (2012: [%] per annum and are for a tenure of approximately [ ] days (2012: [ ] days).

FRS 107: 14

Short-term deposits of the Group amounting to $________ (2012: $______) were pledged to banks to secure credit facilities granted to the subsidiaries (Note 33).

FRS 107: 31, 34(a)

The currency profiles of the Group's and Company's cash and bank balances as at 31 December are as follows:

	Group		Company	
	2013	2012	2013	2012
	$'000	$'000	$'000	$'000
United States dollar				
Singapore dollar				
Thai baht				
Ringgit Malaysia				

FRS 107: 6

27. Cash and bank balances (Continued)

FRS 7: 45

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise the following at the end of the financial year:

	Group	
	2013	2012
	$'000	$'000
Cash and bank balances		
- Continuing operations (as above)		
- Discontinued operations (Note 9)		
Less: bank overdrafts (Note 33)		
Less: short-term deposits pledged		
Cash and cash equivalents		

FRS 7: 8

Commentary

For the purposes of presentation in the statement of cash flows under FRS 7, cash equivalents are defined as "short-term highly liquid investments that are readily convertible to a known amount of cash and which are subject to an insignificant risk of changes in value". Short-term deposits and other investments which mature in three months or less would normally qualify.

Any deposits pledged or otherwise restricted should be excluded from cash and cash equivalents in the statement of cash flows.

28. Share capital

FRS 1: 78(e)

FRS 1: 79(b)

30. Other reserves

	Group		**Company**	
	2013	**2012**	**2013**	**2012**
	$'000	**$'000**	**$'000**	**$'000**
Available-for-sale reserve				
Revaluation reserve				
Foreign exchange reserve				
Statutory reserve fund				

<u>Available-for-sale reserve</u>

Available-for-sale reserve represents the cumulative fair value changes, net of tax, of available-for-sale financial assets until they are derecognised or impaired.

	Group and Company	
	2013	**2012**
	$'000	**$'000**
At 1 January		
Net gain on fair value changes during the financial year		
Reclassification on disposal of available-for-sale investments		
Share of other comprehensive income of associates		
At 31 December		

FRS 1: 79(b)

30. Other reserves (Continued)

Revaluation reserve

The revaluation reserve represents increases in the fair value of freehold land and building, other than investment property, net of tax, and decreases to the extent that such decrease relates to an increase on the same asset previously recognised in equity.

	Group	
	2013	**2012**
	$'000	**$'000**
At 1 January		
Gain on revaluation		
At 31 December		

Statutory reserve fund

In accordance with the Foreign Enterprise Law applicable to the subsidiary in the People's Republic of China (PRC), the subsidiary is required to make appropriation to a Statutory Reserve Fund (SRF). At least 10% of the statutory after tax profits as determined in accordance with the applicable PRC accounting standards and regulations must be allocated to the SRF until the cumulative total of the SRF reaches 50% of the subsidiary's registered capital. Subject to approval from the relevant PRC authorities, the SRF may be used to offset any accumulated losses or increase the registered capital of the subsidiary. The SRF is not available for dividend distribution to shareholders.

	Group	
	2013	**2012**
	$'000	**$'000**
At 1 January		
Transferred from retained earnings		
At 31 December		

Foreign exchange reserve

The foreign exchange reserve represents foreign exchange differences arising from the translation of the financial statements of foreign operations where functional currencies are different from that of the Group's presentation currency.

	Group	
	2013	**2012**
	$'000	**$'000**
At 1 January		
Exchange differences arising on translation of foreign operations		
Reclassification to profit or loss on disposal of subsidiary (Note 16)		
At 31 December

2012			
Within one year			
After one year but within five years			
After five years			

32. **Finance lease payables** (Continued)

FRS 17: 31(e) The finance lease terms range from [ ] to [ ] years.

FRS 107: 31
FRS 107: 29(a) The effective interest rates charged during the financial year range from [%] to [%] (2012: [%] to [%]) per annum. Interest rates are fixed at the contract dates, and thus expose the Group to fair value interest rate risk (Note 43). As at the end of the financial year, the fair values of the Group's finance lease obligations approximate their carrying amounts.

FRS 17: 31(c) All leases are on a fixed repayment basis and no arrangements have been entered into for contingent rental payments.

FRS 16: 74(a) The Group's obligations under finance leases are secured by the lessors' title to the leased assets, which will revert to the lessors in the event of default by the Group.

FRS 109: 31, 34 The finance lease payables are denominated in Singapore dollar.

33. Bank borrowings

		Group		Company	
		2013	2012	2013	2012
		$'000	$'000	$'000	$'000
FRS 107: 7	Secured bank loans (a)				
	Unsecured bank overdrafts (b)				
	Total				
	Less :				
FRS 1: 61(a)	Amount due for settlement within 12 months (c)				
FRS 1: 61(b)	Amount due for settlement after 12 months				

FRS 107: 14 (a) The Group's secured bank loans are secured as follows:

(i) legal charges on the freehold land and buildings of certain subsidiaries (Note 12);
(ii) guarantees from the Company, certain subsidiaries, related parties and directors of certain subsidiaries; and
(iii) pledges over short-term deposits (Note 27).

The average effective borrowing rates range from [%] to [%] (2012: [%] to [%]) per annum and have maturity dates between 2014 and 2018.

FRS 107: 31, 34 (b) The unsecured bank overdrafts are repayable on demand. The effective interest rates range from [%] to [%] (2012: [%] to [%]) during the financial year and are determined based on ____% plus prime rate.

(c) The amount, shown under current liabilities, consists of secured banks loans (a) of $_____ (2012: $_______) and unsecured bank overdraft (b) of $_________ (2012: $_______).

FRS 107: 29(a) Management estimates that the carrying amounts of the Group's and Company's borrowings approximate their fair values.

33. Bank borrowings (Continued)

FRS 107: 31, 34(a)

The currency profiles of bank borrowings of the Group's and the Company's as at 31 December are as follows:

	Group		Company

	- Bank borrowings (Note 33)				
FRS 107: 6, 8(f)	Total financial liabilities carried at amortised cost				

FRS 24: 18(b)

The non-trade amounts due to subsidiaries, associates and other related parties within other payables are unsecured, interest-free, repayable on demand and are to be settled in cash.

FRS 107: 31, 34

The average credit period on purchases of goods is [ ] days (2012: [ ] days).

No interest is charged on the trade and other payables.

34. Trade and other payable (Continued)

FRS 107: 31, 34(a)

The currency profiles of the Group's and Company's trade and other payables as at 31 December are as follows:

	Group		Company	
	2013	2012	2013	2012
	$'000	$'000	$'000	$'000
United States dollar				
Singapore dollar				
Thai baht				
Ringgit Malaysia				

35. Dividends

FRS 1: 107

During the financial year ended 31 December 2013, the Company declared and paid a final one-tier tax exempt dividend of $___ per ordinary share of the Company totalling $____ in respect of the financial year ended 31 December 2013.

FRS 1: 137(a)

The Company did not recommend any dividend in respect of the financial year ended 31 December 2013.

36. Operating lease commitments

FRS 17: 35(a)

At the end of the financial year, commitments in respect of non-cancellable operating leases in respect of office premises and other operating facilities are as follows:

	Group		Company	
	2013	2012	2013	2012
	$'000	$'000	$'000	$'000
Future minimum lease payments payable:				
Within one year				
After one year but within five years				
After five years				
Total				

FRS 17: 35(d)

Operating lease payments represent rents payable by the Group and Company for office premises and other operating facilities. Leases are negotiated for an average term of __ to __ years and rentals are fixed for an average of __ to __ years with no provisions for contingent rent or upward revision of rent based on market price indices.

Commentary

The Group and the Company as lessors

FRS 17: 56(c)

The Group has entered into commercial property leases on its investment properties. These non-cancellable leases have remaining lease terms of between [ ] and [ ] years. All leases include a clause to enable upward revision of the rental charge of an annual basis based on prevailing market conditions.

36. Operating lease commitments

Commentary

The Group and the Company as lessors (Continued)

FRS 17: 56(a)

As at the end of the financial year, future minimum rentals receivable under non-cancellable operating leases at the end of the financial year are as follows:

	2013	*2012*	*2013*	*2012*
	$'000	*$'000*	*$'000*	*$'000*
Future minimum lease payments payable:				
Within one year				
After one year but within five years				
After five years				
Total				

37. Capital commitments

FRS 16: 74(c)

As at the end of the financial year, commitments in respect of capital expenditure, excluding those relating to joint ventures (Note 18), are as follows:

	Group	
	2013	2012
	$'000	$'000
Capital expenditure contracted but not provided for		
- Commitments for the acquisition of property, plant and equipment		
FRS 38: 122(e) - Commitments for the acquisition of intangibles		

38. Contingent liabilities, unsecured

FRS 37: 86

As at 31 December 2013, the Company had given guarantees amounting to $__________ (2012: $_____________) to certain banks in respect of banking facilities granted to the subsidiaries (Note 16).

The Company has not recognised any liability in respect of the guarantees given to the banks for banking facilities granted to the subsidiaries as the Company's directors have assessed that the likelihood of the immediate holding company defaulting on repayment of its loan is remote.

As at the end of the financial year, the total amount of loans outstanding covered by the guarantees is $_____________ (2012: $_________). Such guarantees are in the form of a financial guarantee as they require the Company to reimburse the respective banks if the respective subsidiaries to which the guarantees were extended fail to make principal or interest repayments when due in accordance with the terms of the borrowings. There has been no default or non-repayment since the utilisation of the banking facility.

As at the end of the financial year, the Company had also given undertakings to certain subsidiaries (Note 16) to provide continued financial support to these subsidiaries to enable them to operate as going concerns and to meet their obligations as and when they fall due for at least 12 months from the financial year end.

39. Significant related party transactions

FRS 24: 9

A related party is defined as follows:

(a) A person or a close member of that person's family is related to the Group and Company if that person:

- (i) Has control or joint control over the Company;
- (ii) Has significant influence over the Company; or
- (iii) Is a member of the key management personnel of the Group or Company or of a parent of the Company.

(b) An entity is related to the Group and the Company if any of the following conditions apply:

- (i) The entity and the Company are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
- (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
- (iii) Both entities are joint venture of the same third party.
- (iv) One entity is a joint ventures of a third entity and the other entity is an associate of the third entity.
- (v) The entity is a post-employment benefit plan for the benefit of employees of either the Company or an entity related to the Company. If the Company is itself such a plan, the sponsoring employers are also related to the Company.
- (vi) The entity is controlled or jointly controlled by a person identified in (a);
- (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

FRS 24: 9
FRS 24: 18, 19, 21

During the year, in addition to the information disclosed elsewhere in these financial statements, the Group entities and the Company entered into the following transactions with related parties at rates and terms agreed between the parties:

	Group		Company	
	2013	2012	2013	2012
	$'000	$'000	$'000	$'000
Rental received from subsidiaries				
Sale of goods to:				
- Associates				
- Companies controlled by directors				
Purchases from:				
- Associates				
- Fellow subsidiaries				
Management fees paid to immediate holding company				
Management fees received from joint venture				
Consultancy fees paid to immediate family member of a director				
Payments made on behalf and reimbursed by the immediate holding company				
Purchase commitments from fellow subsidiaries				

39. Significant related party transactions (Continued)

The outstanding balances as at 31 December with related parties are disclosed in Notes 23 and 34 and are unsecured, interest-free, repayable on demand and are to be settled in cash, unless otherwise stated. There are no outstanding balances with key management personnel or their immediate family members.

Key management personnel remuneration

		Group		Company	
		2013	**2012**	**2013**	**2012**

FRS 24: 17(a)	Short-term benefits				
FRS 24: 17(b)	Post-employment benefits				
FRS 24: 17(c)	Other long-term benefits				

Commentary

FRS 24: 18

If there have been transactions between related parties, the nature of the related party relationship as well as information about the transactions and outstanding balances, including commitments, shall be disclosed. The disclosures are to include:

(a) the amount of the transactions
(b) the amount of outstanding balances, including commitments including: (i) the terms and conditions, including whether they are secured and the nature of consideration to be provided in settlement, and (ii) details of any guarantees given or received;
(c) provisions for doubtful debts; and
(d) the expense in respect of bad and doubtful debts due from related parties.

FRS 24: 19

Related party transactions must be disclosed separately for each of the following categories:

(a) the parent;
(b) entities with joint control or significant influence over the entity;
(c) subsidiaries;
(d) associates;
(e) joint ventures in which the entity is a venture;
(f) key management personnel of the entity or its parent; and
(g) other related parties.

FRS 24: 21

Examples of transactions that are disclosed if they are with a related party are:

(a) purchases or sales of goods;
(b) purchases or sales of property or other assets;
(c) rendering or receiving of services;
(d) leases;
(e) transfers of research and development;
(f) transfers under licence agreements;
(g) transfers under finance arrangements (including loans and equity contributions in cash or in kind);
(h) provision of guarantees or collateral;
(i) commitments to do something if a particular event does or does not occur in the future; and
(j) settlement of liabilities on behalf of the entity or by the entity on behalf of another party.

FRS 24: 17(d)(e)

In addition to the items presented in the illustrative disclosures, key management remuneration disclosure should include termination benefits and share-based payments where applicable.

40. Reclassifications and comparatives

FRS 1: 41

Certain reclassifications have been made to the prior year’s financial statements to enhance comparability with current year’s financial statements.

[Please state the nature and reason for the reclassification(s).]

The items were reclassified as follows:

	Group	
	Previously reported	**After reclassification**
	2012	**2013**
STATEMENT OF FINANCIAL POSITION	**$’000**	**$’000**
ASSETS		
Current assets:		
Prepaid lease payment		
Non-current assets:		
Property, plant and equipment		
Prepaid lease payment		
CONSOLIDATED STATEMENT OF CASH FLOWS		
Amortisation of prepaid lease payment		
Depreciation expense		

Commentary

Reclassifications

FRS 1: 41

Note that under FRS 1: 41 when there are any changes to the presentation or classification of items in the financial statements, comparatives must be reclassified. When comparatives are reclassified the nature of the reclassification, the amounts reclassified and the reasons for the reclassification must be disclosed. These disclosures should also be presented as at the beginning of the preceding period when relevant. A third statement of financial position as at the beginning of the preceding period must also be presented. This example assumes that the reclassification in question does not have any impact as at the beginning of the preceding period and therefore the third statement of financial position has not been presented.

FRS 1: 40A

Comparatives

For newly incorporated entities presenting their first set of accounts, please include the following illustrative note to explain the lack of comparative figures:

The financial statements cover the period since incorporation on [ ] to [ ]. These being the first set of accounts, there are no comparative figures.

Subsequently, for entities with unequal comparative financial periods, please include the following illustrative note to explain the difference:

The financial statements for 2012 cover the period from [ ] to [ ].

FRS 108: 20, 21

41. Segment information

FRS 108: 22(b)

Management has determined the operating segments based on the reports reviewed by the chief operating decision maker (Note 2.26).

Management considers the business from both a geographic and business segment perspective. Geographically, management manages and monitors the business in these primary geographic areas: Singapore, Thailand, China and United States. All these locations are engaged in the manufacturing, distribution and trading of audio systems and speaker products.

The Group has three reportable segments being manufacturing, distribution and trading segments.

The manufacturing segment produces audio systems and speaker products for sale to other segments and constructs customised audio systems and speaker products for sales to third parties. The distribution segment sells audio systems and speaker products produced by the manufacturing segment to whole-sale distributors. The trading segment sells audio systems and speakers products produced by the manufacturing segment to the retailers.

FRS 108: 16

“Other” segments includes the Group’s remaining minor trading and investment holding activities which are not included within reportable segments as they are not separately reported to the chief operating decision maker and they contribute minor amounts of revenue to the Group.

FRS 108: 22(a)

The Group’s reportable segments are strategic business units that are organised based on their function and targeted customer groups. They are managed separately because each business unit requires different skill sets and marketing strategies.

Management monitors the operating results of the segments separately for the purposes of making decisions about resources to be allocated and assessing performance. Segment performance is evaluated based on operating profit or loss which is similar to the accounting profit or loss.

FRS 108: 23(h)

Income taxes are managed on a Group basis.

FRS 108: 27(b)
FRS 108: 27(c)
FRS 108: 27(d)

The accounting policies of the operating segments are the same as those described in the summary of significant accounting policies. There is no asymmetrical allocation to reportable segments. Management evaluates performance on the basis of profit or loss from operations before tax expense not including non-recurring gains and losses and foreign exchange gains or losses.

FRS 108: 27(e)

There is no change from prior periods in the measurement methods used to determine reported segment profit or loss[1].

FRS 108: 27(a)

The Group accounts for intersegment sales and transfer as if the sales or transfers were to third parties, which approximate market prices. These intersegment transactions are eliminated on consolidation.

Commentary

[1] The Group does not need to restate segment information if there is a change in the measure of profit or loss. The Group is however required to disclose the nature of any change from prior periods in the measurement methods used to determine the reported segment profit or loss and the effect, if any, of those changes on the measure of segment profit or loss.

FRS 108: 29

However, the Group will need to restate their figures if there has been a change in the composition of the segments resulting from changes in the structure of an entity’s internal organisation.

Commentary

FRS 108: 23

(i) Interest revenue

The Group can only report net interest revenue if a majority of the segment's revenues are from interest and the chief operating decision maker relies primarily on net interest revenue.

FRS 1: 86

(ii) Material items of income and expenses

These are material items of income and expense disclosed in accordance with FRS 1:86.

FRS 108: 23

(iii) Segment assets and segment liabilities

An entity shall report a measure of total assets and liabilities for each reportable segment if such amounts are regularly provided to the chief operating decision maker.

FRS 108: 28

(iv) Other material reconciling items

Other material reconciling items should also be separately identified and described.

Non-current assets consist of property, plant and equipment, other intangible assets, investment properties, investment in associates and investment in joint venture.

Commentary

FRS 108: 31

The geographic information is required to be disclosed even where there is only one segment. In the case where the necessary information is not available for disclosure and the cost to develop it would be excessive, that fact shall be disclosed.

FRS 108: 33(a)

The entity is required to disclose the revenues from external customers attributed to the Company's country of domicile as well as all foreign countries in total from which the Group derives the revenues if such revenues attributed to an individual foreign country are not material enough to warrant separate disclosures. The basis for attributing revenues from external customers to individual countries shall also be disclosed.

FRS 108: 33(b)

Similarly, the entity is required to disclose the non-current assets located in the Company's country of domicile and all foreign countries in total if the non-current assets located in individual foreign countries are not material enough to warrant separate disclosures.

The information provided shall be based on the financial information that is used to produce the Group's financial statements.

Major customers

FRS 108: 34

The revenues from one customer of the Group's trading segment represent approximately $________ (2012: $________).

Commentary

The Group is required to provide information about the extent of its reliance on major customers. If revenues from transactions with a single external customer amount to 10% or more of the Group's revenues, the Group shall disclose this fact, the total amount of revenues from each such customer and the identity of the segment(s) reporting the revenues.

The entity needs not disclose the identity of a major customer but it needs to disclose the amount of revenues that each segment reports from that customer.

A group of entities known to the Group to be under common control shall be considered a single customer.

42. Financial instruments and financial risks

FRS 107: 31, 32, 33

The Group’s activities expose it to credit risks, market risks (including foreign currency risks, interest rate risks and equity price risks) and liquidity risks. The Group’s overall risk management strategy seeks to minimise adverse effects from the volatility of financial markets on the Group’s financial performance.

The Group uses financial instruments such as foreign currency forward contracts and interest rate swaps to hedge certain financial risk exposures.

The Board of Directors is responsible for setting the objectives and underlying principles of financial risk management for the Group. The management then establishes the detailed policies such as authority levels, oversight responsibilities, risk identification and measurement, exposure limits and hedging strategies, in accordance with the objectives and underlying principles approved by the Board of Directors.

Financial risk management is carried out by a central treasury department (“Group Treasury”) in accordance with the policies set by the management. The trading team of Group Treasury identifies, evaluates and hedges financial risks in close co-operation with the Group’s operating units. The reporting team of Group Treasury measures actual exposures against the limits set and prepares daily reports for review by the Heads of Group Treasury and each operating unit. Regular reports are also submitted to the management and the Board of Directors.

FRS 107: 33(c), 40(c)

There have been no changes to the Group's exposure to these financial risks or the manner in which it manages and measures the risk. Market risk exposures are measured using sensitivity analysis as indicated below.

Credit risks

FRS 107: 33(a)(b), 36

Credit risk refers to the risk that the counterparty will default on its contractual obligations resulting in a loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral where appropriate, as a means of mitigating the risk of financial loss from defaults. The Group performs ongoing credit evaluation of its counterparties’ financial condition and generally does not require collateral.

FRS 107: 34(a)(c)
FRS 107: AGB8

The Group and Company do not have any significant credit exposure to any single counterparty or any group of counterparties having similar characteristics except for [ ] as disclosed in this note.

The Group’s and Company’s major classes of financial assets are bank deposits and trade receivables.

FRS 107: 36(c)

Bank deposits are mainly deposits with banks with high credit-ratings assigned by international credit rating agencies.

Trade receivables that are neither past due nor impaired are substantially companies with good collection track record with the Group.

FRS 107: 37(a)

The age analysis of trade receivables past due but not impaired is as follows:

	Group		Company	
	2013	2012	2013	2012
	$’000	$’000	$’000	$’000
Past due for 1 to 90 days				
Past due for 91 to 180 days				
Past due for 181 to 365 days				
Past due for more than 365 days				

42. Financial instruments and financial risks (Continued)

Commentary

FRS 107: 36(b)

Where the Group holds collateral as security and other credit enhancements, please provide a description of these instruments and their financial effect (e.g. quantification of the extent to which collateral and other credit enhancements mitigate credit risk) in respect of the amount that best represents the maximum exposure to credit risk for each class of such financial instruments.

FRS 107: 38

Where the Group obtains collaterals and other credit enhancements during the financial period and continues to hold them as at the reporting date, please disclose the following:

(a) nature and carrying amount of the assets; and
(b) when the assets are not readily convertible into cash, its policies for disposing of such assets or for using them in its operations.

Please refer to the following as an illustrative guide:

During the financial year, the Group obtained assets by taking possession of collateral held as security. Those assets which are not yet derecognised as of 31 December 2013 are as follows:

Nature of assets	*Carrying amount* *$'000*
Inventories	
Property, plant and equipment	

Repossessed items are sold as practicable, with the proceeds used to reduce outstanding receivables.

Market risks

FRS 107: 33(a)(b)

The Group's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates. The Group enters into a variety of derivative financial instruments to manage its exposure to interest rate and foreign currency risks, including foreign currency forward contracts to hedge against foreign currency risk and interest rate swaps to mitigate the risk of rising interest rates.

Foreign currency risks

The Group transacts business in various foreign currencies, including United States dollar, Thai baht and Ringgit Malaysia and hence is exposed to foreign currency risks. These risks are managed either by foreign currency forward contracts in respect of actual or forecast currency exposures or through natural hedges arising from a matching of sales and purchases or a matching of assets and liabilities of the same currency and amount.

FRS 107: 34

42. Financial instruments and financial risks (Continued)

Market risks (Continued)

Foreign currency risks (Continued)

The carrying amounts of the Group's and Company's foreign currency denominated monetary assets and monetary liabilities as at the end of the financial year are as follows:

The Company has a number of investments in foreign subsidiaries, whose net assets are exposed to foreign exchange translation risk.

42. Financial instruments and financial risks (Continued)

Market risks (Continued)

Foreign currency risks (Continued)

Commentary

FRS 107: 22

Where the Group enters into foreign currency forward contracts with third parties or with the Group Treasury as part of its hedging activities to mitigate the foreign currency risks, please describe the objective, policies and procedures of its hedging activities.

Please refer to the following as an illustrative guide:

The Group transacts business in various foreign currencies, including United States dollar, Thai baht and Ringgit Malaysia and hence is exposed to foreign currency risks. To manage foreign currency risks, individual Group entities enter into foreign currency forward contracts with the Group Treasury which in turn manages the overall currency exposure mainly through foreign currency forward contracts.

The Group Treasury's risk management policy is to hedge between [%] and [%] of highly probably forecast transactions (mainly export sales and import purchases) in the next 3 months and approximately [%] of firm commitments, denominated in foreign currencies.

FRS 107: 40

Foreign currency sensitivity analysis

The Group is mainly exposed to United States dollar (USD) and Thai Baht (THB).

The following table details the Group's sensitivity to a [%] change in USD and THB against Singapore dollar. The sensitivity analysis assumes an instantaneous [%] change in the foreign currency exchange rates from the end of the financial year, with all variables held constant. The results of the model are also constrained by the fact that only monetary items, including external loans and loans to foreign operations, which are denominated in USD and THB are included in the analysis. Consequentially, reported changes in the values of some of the financial instruments impacting the results of the sensitivity analysis are not matched with the offsetting changes in the values of certain excluded items that those instruments are designed to finance or hedge.

Commentary

FRS 107: 22

Please include explanations for material variances between 2012 and 2013 or/and increase (decrease) in the profit or loss and equity. In addition, where management believes that the sensitivity analyses are unrepresentative, please disclose the fact and the reason(s).

Interest Rate Risks

FRS 107: 33(a)(b)

The Group's interest rate risks relate to interest bearing liabilities and interest bearing assets.

The Group's policy is to maintain an efficient and optimal interest cost structure using a combination of fixed and variable rate debts, and long and short term borrowings. The Group enters into interest rate swaps to minimise its interest rate risks. The duration of such interest rate swaps do not exceed the tenor of the underlying debts. Further details of the interest rate swaps can be found in Note 26 to the financial statements.

The Group's and Company's exposure to interest rate risks is set out in a table below under Liquidity risks.

Interest rate sensitivity analysis

FRS 107: 40

The sensitivity analysis below has been determined based on the exposure to interest rate risks for both derivatives and non-derivative instruments at the end of the financial year. For floating rate liabilities, the analysis is prepared assuming the amount of liability outstanding at the end of the financial year was outstanding for the whole year. The sensitivity analysis assumes an instantaneous [%] change in the interest rates from the end of the financial year, with all variables held constant.

	Increase/(Decrease)							
	Group		Company		Group		Company

Commentary

Please include explanations for material variances between 2012 and 2013 or/and increase (decrease) in the profit or loss and equity. In addition, where management believes that the sensitivity analyses are unrepresentative, please disclose that fact and the reason(s).

42. Financial instruments and financial risks (Continued)

Market risks (Continued)

Equity Price Risks

FRS 107: 33(a)(b) The Group is exposed to equity price risks arising from equity investments classified as either available-for-sale or held-for-trading investments. Available-for-sale equity investments are held for strategic rather than trading purposes. The Group does not actively trade available-for-sale investments.

Further details of these equity investments can be found in Notes 21 and 25 to the financial statements.

Equity price sensitivity analysis

FRS 107: 40 The sensitivity analysis below has been determined based on the exposure to equity price risks at the balance sheet date.

The sensitivity analysis assumes an instantaneous [%] change in the equity prices from the balance sheet date, with all variables held constant.

FRS 107: 42 Please include explanations for material variances between 2012 and 2013 or/and increase (decrease) in the profit or loss and equity. In addition, where management believes that the sensitivity analyses are unrepresentative, please disclose that fact and the reason(s).

42. Financial instruments and financial risks (Continued)

FRS 107: 33, 39

Liquidity risks

Liquidity risks refer to the risks in which the Group encounters difficulties in meeting its short-term obligations. Liquidity risks are managed by matching the payment and receipt cycle.

The following table details the Group's remaining contractual maturity for its non-derivative financial instruments. The table has been drawn up based on undiscounted cash flows of financial instruments based on the earlier of the contractual date or when the Group is expected to receive or (pay). The table includes both expected interest and principal cash flows.

FRS 107: 34, 39(a)

	Effective interest rate	Less than 1 year	1 to 2 years	2 to 4 years	More than 5 years	Total
	%	$'000	$'000	$'000	$'000	$'000

> *As at the end of the financial year, it was not probable that the counterparty to the financial guarantee contract will claim under the contract. Consequently, the amount included above is nil.*

FRS 107: 39(b)

The following table details the Group's maturity analysis for its derivative financial instruments. The table has been drawn up based on the undiscounted net cash inflows (outflows) on the derivative instruments that settle on a net basis and the undiscounted gross inflows (outflows) on those derivatives that require gross settlement. When the amount payable or receivable is not fixed, the amount disclosed has been determined by reference to the projected interest rates.

	Effective interest rate	Less than 1 year	1 to 2 years	2 to 4 years	More than 5 years	Total
	%	$'000	$'000	$'000	$'000	$'000
The Group						
Net-settled:						
Interest rate swaps						
Foreign currency forward contracts						
Gross-settled:						
Foreign currency forward contracts						
As at 31 December 2013						
The Group						
Net-settled:						
Interest rate swaps						
Foreign currency forward contracts						
Gross-settled:						
Foreign currency forward contracts						
As at 31 December 2012						

The Group's operations are financed mainly through equity, retained profits and bank borrowings. Adequate lines of credits are maintained to ensure the necessary liquidity is available when required.

The repayment terms of the finance leases, bank loans and overdrafts are disclosed in Notes 32 and 33 to these financial statements respectively.

FRS 107: 25, 29(a)

43. Fair value of financial assets and financial liabilities

Fair value of financial instruments that are not carried at fair value

Except as detailed in the following table, management considers that the carrying amounts of financial assets and liabilities recorded at amortised cost in the financial statements approximate their fair values due to their relative short term maturity.

	Carrying amount	Fair value		
	$'000	Level 1	Level 2	Level 3
Group		$'000	$'000	$'000
2003				
Financial assets				
Held-to-maturity investments:				
Unquoted debt securities				
Financial liabilities				
Borrowings:				
Finance leases				
Bank loans				
Company				
Financial assets				
Held-to-maturity investments:				
Unquoted debt securities				
Financial liabilities				
Bank loans				

	Carrying amount	Fair value		
	$'000	Level 1	Level 2	Level 3
Group		$'000	$'000	$'000
2002				
Financial assets				
Held-to-maturity investments:				
Unquoted debt securities				
Financial liabilities				
Borrowings:				
Finance leases				
Bank loans				
Company				
Financial assets				
Held-to-maturity investments:				
Unquoted debt securities				
Financial liabilities				
Bank loans				

FRS 107: 29(b), 30

Fair value information has not been disclosed for the Group's investments in unquoted equity instruments that are carried at cost because their fair value cannot be determined reliably (Note 21). The Group has no plans to dispose of these securities in the foreseeable future.

FRS 107: 25, 29

43. Fair value of financial assets and financial liabilities (Continued)

Fair value of financial instruments that are not carried at fair value (Continued)

FRS 113: 93(b)(d), FRS 113; 97

The fair values of the unquoted debt securities for disclosures purposes have been determined using discounted cash flow pricing models and are considered level 3 fair value measurements. Significant inputs to the valuations include adjustments to the discount rate for credit risk associated with the risk of default.

The fair values of bank loans and finance leases for disclosure purposes have been determined using discounted cash flow pricing models and are considered level 3 fair value measurements. Significant inputs to the valuations include adjustments to the discount rate for credit risk associated with ABC Singapore Limited.

Commentary

FRS 107: 25, 29(a)

The disclosure of fair values of financial instruments not carried at fair value may be presented either in a single table, as above or in the respective notes, as also illustrated in these illustrative financial statements. Both types of disclosure are not however necessary. A statement such as the following may be considered as well:

The carrying amount of cash and cash equivalents, trade and other current receivables and payables approximate their respective fair values due to the relative short term maturity of these financial instruments. The fair values of other classes of financial assets and liabilities are disclosed in the respective notes to the financial statements.

FRS 113 requires specific disclosures for items measured or disclosed at fair value, depending on:

- The level of fair value measurement, and
- Whether the fair value measurement is **recurring** or non-recurring

Financial instruments are example of recurring fair values as fair valuation is required at each reporting date.

FRS 113: 97

For financial assets and liabilities that are not carried at fair value, but for which FRS 107 requires the disclosures of fair values, and entity must disclose:

- The fair value hierarchy level;
- A description of the valuation techniques used; and
- Significant unobservable inputs (Level 3).

However, quantitative disclosures about significant unobservable inputs for Level 3 fair value measurements are not required.

FRS 107: 25, 29

43. Fair value of financial assets and financial liabilities (Continued)

Financial instruments carried at fair value classified by level of fair value hierarchy are as follows:

FRS 113: 93(b)

	Fair value measurement using:		
	Level 1	Level 2	Level 3
2013	**$'000**	**$'000**	**$'000**

Derivative financial instruments		X	
Company			
Assets			
Held-for-trading investments	X		
Derivative financial instruments		X	
Available-for-sale financial assets			
- Quoted equity securities	X		
Total			
Liabilities			
Derivative financial instruments		X	

There were no transfers between levels during the period.

FRS 113: 93(b)

The financial instruments included in level 1 are traded in active markets and their fair values are based on quoted market prices at the reporting date.

FRS 113: 93(d)

The financial instruments that are not traded in active markets comprise derivatives. The fair value of derivatives are determined through the use of discounted cash flow valuation techniques with observable market inputs such as yield curves and quoted forward rates at the reporting date. These financial instruments have been classified as level 2 in the current and previous financial years.

There have been no changes in the valuation techniques of the various classes of financial instruments during the financial year.

43. Fair value of financial assets and financial liabilities (Continued)

Commentary

FRS 113: 93

For financial assets and liabilities carried at fair value, FRS 113 requires the following to be disclosed:

FRS 113: 93(b)
FRS 113: 93(c)
FRS 113: 93(d)
FRS 113: 93(g)
FRS 113: 93(h)
FRS 113: 93(e)(f)

- The fair value hierarchy level ie L1, L2 or L3
- Any transfers between levels (L1 and L2)
- A description of the valuation techniques used, any changes in the techniques and the reasons why (L2 and L3).
- Significant unobservable inputs (L3)
- A description of valuation processes and policies (L3, this could be in Note 3.2 or here)
- A narrative description and quantitative analysis of the sensitivity of changes in significant unobservable inputs to fair value (L3)
- A reconciliation between opening and closing fair value measurement, including any unrealised fair value gains/losses L3).

In the case of ABC Singapore Limited, we have presumed that the valuation techniques result in **level 1 or 2** fair value measurements, being based on quoted prices or observable inputs. However, if at least one unobservable input is used in the valuation, it will be classified as level 3 and the additional disclosure requirements for level 3 above will apply.

The following illustrative disclosure can be considered for level 3 fair values of financial assets and liabilities:

The valuation techniques and significant unobservable inputs used in determining the fair value measurement of level 3 financial instruments, as well as the inter-relationship between key unobservable inputs and fair value, are set out in the table below.

Financial Instrument	***Valuation techniques used***	***Significant unobservable inputs***	***Inter-relationship between key unobservable inputs and fair value***
[FINANCIAL INSTRUMENT]	*[VALUATION TECHNIQUE]* *[DESCRIPTION]* *[PROCESSES AND POLICIES]*	*[LIST SIGNIFICANT UNOBSERVABLE INPUTS USED]*	*[DESCRIBE WHETHER INCREASES OR DECREASES IN SIGNIFICANT UNOBSERVABLE INPUTS WOULD CAUSE AN INCREASE OR DECREASE IN FAIR VALUE]*
Unquoted equity investments	***Discounted cash flow***	– *Weighted average cost of capital (X% to X%; weighted average X%)* – *Long term revenue growth rate (X% to X%; weighted average X%)* – *Long-term pre-tax operating margin (X% to X%; weighted average X%)* – *Discount for lack of marketability (X% to X%; weighted average X%)* – *Control premium (X% to X%; weighted average X%)%)*	*Increased long term revenue growth rate and long-term pre-tax operating margin by X% and lower weighted average cost of capital (-X%) would increase FV by $XX; lower long term revenue growth rate and long-term pre-tax operating margin (-X%) and higher weighted average cost of capital (X%) would decrease FV by $X*

43. Fair value of financial assets and financial liabilities (Continued)

Commentary: (Continued)

The reconciliation of the opening and closing fair value balance of level 3 financial instruments is provided below:

	Equity investments
	$'000
At 1 January 2012	
Gains/(Loss): included in 'other comprehensive income'	
- Available-for-sale investments	
At 31 December 2012	
At 1 January 2013	
Purchases	
Disposals	
Transfers into level 3	
Gains/(Loss): included in 'other comprehensive income'	
- Available-for-sale investments	
At 31 December 2012	

The sensitivity analysis of a reasonably possible change in one significant unobservable input, holding other inputs constant, of level 3 financial instruments is provided below:

31 December 2013	***Profit or loss***		***Other comprehensive income (net of tax)***	
	Increase	***Decrease***	***Increase***	***Decrease***
	$'000	***$'000***	***$'000***	***$'000***
[SIGNIFICANT UNOBSERVABLE INPUT #1] [REASONABLY POSSIBLE CHANGE]	*[VALUE]*	*[VALUE]*	*[VALUE]*	*[VALUE]*
[SIGNIFICANT UNOBSERVABLE INPUT #2] [REASONABLY POSSIBLE CHANGE]	*[VALUE]*	*[VALUE]*	*[VALUE]*	*[VALUE]*
[SIGNIFICANT UNOBSERVABLE INPUT #3] [REASONABLY POSSIBLE CHANGE]	*[VALUE]*	*[VALUE]*	*[VALUE]*	*[VALUE]*

FRS 1: 134, 135

44. Capital management policies and objectives

The Group manages its capital to ensure that the Group is able to continue as a going concern and maintains an optimal capital structure so as to maximise shareholder value.

The capital structure of the Group consists of equity attributable to equity holders of the parent, comprising issued capital, reserves and retained earnings as disclosed in Notes 28, 29 and 30.

Management monitors capital based on a gearing ratio [%]. The Group and the Company are also required by the banks to maintain a gearing ratio of not exceeding [%] (2012: [%]). The Group's and Company's strategies, which were unchanged from the previous financial year, are to maintain gearing ratios within [%] and [%].

As disclosed in Note 30, a subsidiary of the Group is required by the Foreign Enterprise Law of the PRC to contribute to and maintain a non-distributable statutory reserve fund whose utilisation is subject to approval by the relevant PRC authorities.

The Group and the Company are in compliance with externally imposed capital requirements for the financial years ended 31 December 2012 and 2013.

Commentary

FRS 1: 135(d)

If there is no such externally imposed capital requirement, the Company/Group should consider making a negative statement to that effect.

The gearing ratio is calculated as net debt divided by total capital. Net debt is calculated as borrowings plus trade and other payables less cash and cash equivalents. Total capital is calculated as equity plus net debt.

The Group's management reviews the capital structure on a semi-annual basis. As part of this review, management considers the cost of capital and the risks associated with each class of capital. Upon review, the Group will balance its overall capital structure through the payment of dividends, new share issues and share buy-backs as well as the issue of new debt or the redemption of existing debt. The Group's overall strategy remains unchanged from 2012.

	Group		Company	
	2013 $'000	2012 $'000	2013 $'000	2012 $'000
Net debt				
Total equity				
Total capital				
Gearing ratio	[%]	[%]	[%]	[%]

Commentary

The above example illustrates capital management disclosure for a reporting entity that monitors its capital using a gearing ratio. Other entities may use different and/or more complex methods to monitor capital. An entity decides, in the light of its circumstances, which measures are more suitable to monitor its capital and how much detail it should disclose.

45. Events subsequent to the reporting date

Commentary

FRS 10: 21

The Group is required to disclose the nature of all material non-adjusting events that took place subsequent to the financial year-end and an estimate of the corresponding financial effect, or in the event that the estimate cannot be made, a statement disclosing the fact.

46. Authorisation of financial statements

FRS 10: 17

The consolidated financial statements of the Group and the statement of financial position of the Company for the financial year ended 31 December 2013 were authorised for issue by the Board of Directors on [ ].

Commentary

Additional notes (where applicable):

FRS 102: 44, 45, 50

Where the entity has in place a share option scheme(s) during the financial year, please refer to the following illustrative disclosure for such a scheme under FRS 102:

Share option scheme

[Provide a description of the share-based payment arrangement: general terms and conditions, vesting requirements, maximum term of options granted, method of settlement]. Details of share options exercised during the financial year to subscribe for ordinary shares of the Company are as follows:

	Exercise price	*Number exercised*		*Cash consideration received*	
		2013	*2012*	*2013*	*2012*
				$'000	*$'000*
Scheme					

The proceeds were used as working capital for the company.

Details of the outstanding share options are as follows:

	The Group and the Company			
	2013		*2012*	
	Number of share options	*Weighted average exercise price*	*Number of share options*	*Weighted average exercise price*
		$		*$*
At 1 January				
Exercised during the year				
Lapsed during the year				
At 31 December				
Exercisable at 31 December				

Commentary (Continued)

The weighted average share price at the date of exercise for share options exercised during the year was $_______(2012: $_______). The options outstanding at the end of the year have a weighted remaining contractual life of [ ] years (2012: [ ] years).

FRS 102: 46, 47

The estimated fair values of the options granted on [ ] is $_______. These fair values were calculated using the Black-Scholes pricing model. The inputs into the model were as follows:

	2013	***2012***
	$'000	***$'000***
Weighted average sale price		
Weighed average exercise price		
Expected volatility		
Expected life		
Risk free rate		
Expected dividend yield		

Expected volatility was determined by calculating the historical volatility of the Company's share price over the previous five years. The expected life used in the model has been adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions and behavioural considerations.

The Group recognised total expenses of $__________ related to equity-settled share-based payment transactions during the year ended 31 December 2013.
